R.A.C.E.
Raising Awareness of Child Exploitation

OUR CURRENT OFFER FOR SUPPORT DURING COVID19

Following a referral been made to our service we will make a unique plan of work for the child or young person based on the referral form and a conversation with the referrer. We will assess their needs along with speaking with the child to seek their voice.

Please see below the child exploitation prevention topics that our service can cover with the referred child or young person:

- Healthy relationships
- Grooming and exploitation
- Online safety
- Image sending
- Keeping safe
- Consent
- Risky behaviour
- Self-esteem
- County Lines

COVID19 - VIRTUAL SESSIONS

During the country's current lockdown situation, our offer at this moment time is a weekly virtual offer of 6-8 sessions that can be completed over the phone with the young person or using a webcam call.

OUR APPROACH

Our Child Exploitation practitioners will also use ideas/resources such as Decider Skills, Solution Focused Practice, Motivational interviewing and WRAP (Well-being Recovery Action Plan). These will help the child to cope with difficult feelings and look positively to the future. We are aware that this is difficult time for young people, so these sessions will allow them to express their thoughts/feelings and provides someone to listen to them.

Believe in children
