The challenge ahead - Health and Wellbeing

The Health and Wellbeing Service has three main areas: the Public Health team that transferred from the NHS to the council in April 2013; the new Cumbria Advice and Support Team (CAST), comprising the former Ways to Welfare and Supporting People services; and Active Cumbria, the county sports partnership.

When public health joined the council last year all the contracts that came with that function were rolled forward until October 2015 to allow for a period of stabilisation before recommissioning. Fast forward 15 months and work is underway to establish new programmes of action, each of which may look very different in future to the services we have at the moment.

These reviews offer some really exciting opportunities to bring together public health and Supporting People work, so that we can offer our clients a comprehensive package of support that will really maximise their independence and their health and wellbeing outcomes. Work on establishing a comprehensive wellbeing service has only just begun, and we will be engaging a wide range of people in planning what this will look like – so look out for opportunities to get involved in this discussion over the coming months.

Making Every Adult Matter Pilot Evaluation (MEAM) - A review of pilots in Cambridgeshire and Derby involving charities and councils providing a coordinated approach to people who are homeless, offenders, substance misusers or experiencing mental health problems. The evaluation found significant increases in wellbeing and cost effectiveness. In Cambridgeshire the savings were as much as 26.4 percent over two years – a saving of £958 per person; in Derby the savings amounted to £484 per client per month. Meam – Making Every Adult Matter

No Second Night Out, District Councils and SP are working together with provider agencies to identify those individuals around the county with the most complex needs. It is hoped that the results will create a clearer picture of the current level of need for this group. For more details on MEAM - [http://www.themeamapproach.org.uk/]

**County News – Supporting People Customer focus groups**

The Supporting People consultation reviews on future commissioning are now well underway across the county. Thank you for sharing your views which will all be considered in our future planning of services. The feedback from those of you who are receiving Supporting People accommodation and/or support has been extremely positive and helpful.

Thanks also goes to those professionals that have taken time to engage in this consultation process.
Local Area Coordination in your area

South Lakes Local Coordination Open Day
This took place on the 5th June. We would like to thank those 19 agencies that attended. My favourite quote from the event: “….a really informative drop in session that has helped me get a better understanding of the work the LACS do and its important role in building stronger communities”

Garden Share Project has arrived in Kendal!
Our LAC’s in South Lakes, Paul and Lucy, have introduced a new project linking people who like gardening with people who have over grown gardens. ASC approached LAC to seek advice regarding difficulties they are facing with part of the carers budget that helps with the upkeep of gardens for service users unable to manage them independently. It is expected to have a variety of individual and community benefits - increasing participation, strengthening communities by positive contribution and establishing natural networks. Changing Our Lives - Quality of Life: Standards and Toolkit
The Quality of Life standards aim to raise people’s expectations about what a good quality of life really means. The standards have been written by over 650 children, young people and adults with learning disabilities and autism. The standards are based on people with disabilities being seen and respected as equal citizens in society. - http://changingourlives.org/images/leaflets/QOLStandardsandToolkit.pdf

The Care Act – The Basics

The Care Act became law in May this year, with the principle of individual wellbeing as the driving force behind it.

The act will help people have clearer information and advice, and a more diverse range of support. It also places more emphasis on prevention - focusing on people’s strengths and capabilities and supporting them to live independently for as long as possible.

The care and support system will also be clearer and fairer. There will be a national minimum eligibility threshold to help people better understand their eligibility for local authority support.

For the first time, carers will be put on the same legal footing as the people they care for, with extended rights to assessment and new entitlements.

The act also marks a change to the way care is paid for so people get more financial support from the state, and are protected from high costs if they develop conditions like dementia.

For more information, a DoH consultation paper on the Care Act is available here: www.gov.uk/government/consultations/updating-our-care-and-support-system-draft-regulations-and-guidance

Keeping Smiling!

You are extremely Lucky…we received no jokes this time! (Well, none worth printing at least.)
