

Cumbria Flood Factsheet

Information for businesses

Business and commercial premises

- If the premises have been flooded or water damage the electrical/ gas installation should be checked by a competent person prior to reconnection;
- Any electrical plant machinery equipment which has been affected should not be used unless checked and verified safe by a competent person;
- If the heating system for the premises is affected it should be checked by a competent person before being brought back into use;
- if you have portable heaters, space heaters etc to dry out your premises, ensure that they are positioned in well ventilated areas away from combustible materials;
- if the premises is provided with a fire safety system such as fire alarms or emergency lighting systems, we recommend that they are checked and tested by a competent engineer prior to the occupation of the premises;
- if you have hazardous materials or substances on your premises which have been affected by water, you should seek specialist advice prior to disposal;
- to avoid the threat of arson, you should ensure that your premises are secure if unoccupied. We would also advise that where damaged goods, equipment etc are removed, that they are stored away from any building in a secure place or in a secured skip;
- prior to re-occupation of your premises we would advise that a risk assessment is reviewed or undertaken to ensure the safety of all employees in your workplace. You should also check your fire exits and escape routes to ensure that they can be used prior to occupation;
- if your premises has structural damage which may be a danger as a result of flooding or storm damage, you should contact your local authority prior to occupation.

If you have any fire safety concerns, please do not hesitate to contact your local Fire Safety Department.

Cumbria Chamber of Commerce

If your business has been affected by the December floods then we're here to help. The experienced Chamber team has helped Cumbrian businesses through Foot & Mouth, the 2005 Floods and the 2009 Floods.

Whether you've been flooded directly or are affected indirectly (for example through staff evacuations or your supply chain), download our Business Continuity Checklist for a list things to think about and do immediately and see our Business Recovery Toolkit for more information to support your recovery.
