Dear

FREEDOM OF INFORMATION ACT 2000 - DISCLOSURE

The council has completed its search relating to your request for information about school bus/coach contracts, which was received on 18 May 2016.

The council does hold information within the definition of your request.

Request

1. Details of all school bus/coach contracts that are current at present showing:

- At least the start and finish point with route of the individual contracts giving enough detail so as to identify what the contract is.
- The amount of pupils carried or seating capacity
- Who the contract has been placed with.
- The daily/annual rate as appropriate.

2. Details of any bulk purchasing of scholars season tickets/passes

- At least the start and finish point of the individual contracts giving enough detail so as to identify what the contract is.
- The amount of pupils carried or seating capacity
- Who the contract has been placed with.
- The daily/annual rate as appropriate.

Response

Please see attachment for your information. The daily/annual rate is withheld under Section 43(2) of the FOIA, however the details of all spend over £500 per month are available online at:

<http://www.cumbria.gov.uk/managingyourcouncil/councilspend500/default.asp> .

All school bus/coach contracts fall into this category (as based on a typical 20 working days per month, this will be £25 per day, and currently we have no routes for buses/coaches that fall below this price threshold). Also every contract awarded over £25K (total spend) is advertised on Contracts Finder ([Contracts Finder - GOV.UK](#)). Therefore this information, though not in the exact format requested, is available from other published sources.

The daily/annual rate is withheld under Section 43(2) of the FOIA, which provides an exemption from disclosure of information which would or would be likely to prejudice the commercial interests of any person. This is a qualified exemption and is, therefore, subject to the public interest test.

The term 'commercial interests' is not defined in the FOIA, however, the council has considered the Information Commissioner's awareness guidance on the application of section 43. This comments that: "...a commercial interest relates to a person's ability to participate competitively in a commercial activity, i.e. the purchase and sale of goods or services."

The daily and annual rates relate to the commercial arrangements in place between the council and the transport operators. The council believes that its own commercial interests would be prejudiced through disclosure of the information withheld under section 43(2) FOIA.

If the daily/annual rates were disclosed then, when the council came to retender for any of the routes mentioned on the attached spreadsheet, operators could use this information as a basis for pricing rather than costing the routes correctly (distance, time etc). Meaning that if a route had a historic high price it would continue to be high; this prejudices the council's ability to achieve best value for money.

Public interest test

Public interest arguments in favour of disclosure

There is a general public interest in terms of openness and accountability as to how the Council is contracting out Transport Services and upon what terms.

Public interest arguments in favour of maintaining the exemption

It is against the public interest to give potential competitors an unfair commercial advantage. There is a public interest in ensuring that companies, such as the providers included on the attached spreadsheet, can compete fairly. There is a strong public interest in protecting the established principle of confidentiality in commercial negotiations between the council and service providers.

Balance of the public interest arguments

The Council considers that there is a public interest in disclosure of the withheld information as it promotes openness and transparency surrounding Council operation and contracting out of services, as in this case Transport Services. However, the Council considers that there is a stronger public interest in maintaining a level playing field to ensure tendering processes for Transport Services are conducted fairly.

On balance the Council considers that the public interest in favour of disclosure is outweighed by the public interest in favour of maintaining the exemption, therefore in this case Section 43(2) FOIA does apply.

Most of the information that we provide in response to requests submitted under the Freedom of Information Act 2000 and Environmental Information Regulations 2004 will be subject to copyright protection. In most cases the copyright will be owned by Cumbria County Council. However the copyright in other information may be owned by another person or organisation, as indicated on the information itself.

You are free to use any information supplied in this response for your own non-commercial research or private study purposes. The information may also be used for any other purpose allowed by a limitation or exception in copyright law, such as news reporting. However, any other type of re-use, for example by publishing the information in analogue or digital form, including on the internet, will require the permission of the copyright owner. Where the copyright owner is the council you will need to make an application under the Re-use of Public Sector Information Regulations 2005.

For information where the copyright is owned by another person or organisation you must apply to the owner to obtain their permission.

If you are dissatisfied with the way the council has responded to your request you can request an Internal Review. If you would like to request a Review please contact the Information Governance Team using the details at the top of this letter.

Further information can be found on the council's website: <http://www.cumbria.gov.uk/council-democracy/accesstoinformation/internalreviewscomplaints.asp>

Yours sincerely,

Senior Manager – Performance and Risk
