Dear Colleague

### **HEALTH AND SAFETY HELPING CHILDREN TO DEAL WITH THE EMOTIONAL CONSEQUENCES OF FLOODING**

Many pupils have been directly or indirectly affected by the recent crisis caused by the weather conditions in Cumbria.

It is an extremely difficult time for everyone but some children may have been particularly affected.

The attached has been drawn up by the County Psychological Service and may be of use you or your staff in helping those children affected to deal with the emotional consequences of the floods.

If you require any further information about this, please do not hesitate to contact me.

Yours sincerely

Kym Allan  
County Manager : Health, Safety and Welfare
