

Introduction

This briefing contains the latest data for Cumbria on the Claimant Count, Joblessness (UK only), job postings, business start-ups and Companies House incorporations and is produced monthly on the day that the Office for National Statistics (ONS) releases claimant data.

It should be noted that the “jobless” figures used extensively by the press are derived from a public survey. As this includes non-claimants looking for work, it can produce different trends to the claimant-only counts. However, the survey has too small a sample to be reliable for Cumbria and therefore all local data in this briefing are for claimants only and should not be compared to the national jobless figures. It should also be noted that historical JSA/UC data are revised regularly and therefore data in this briefing should not be compared directly with previous briefings.

NB: The claimant count was taken on 10th November 2016.

1. KEY FINDINGS

Joblessness (UK only)

- The jobless total for the UK (claimants + non claimants looking for work) fell by 16,182 in the quarter to Oct 2016 and stood at 1.62m, 102,568 lower than a year ago;
- The UK jobless rate was 4.8%, unchanged from last quarter and down from 5.2% a year ago.
- Similar jobless figures are not available for local areas.

National Seasonally Adjusted Claimant Data (UK only)

- The seasonally adjusted UK JSA claimant count was 809,045 in Nov 2016, up by 2,354 from last month and up 23,453 from the same month last year;
- The seasonally adjusted UK JSA claimant rate was 2.0% in Nov 2016, the same as last month.
- Seasonally adjusted figures are not available for local areas.

Local Claimant Data

- In Nov 2016 there were 4,385 people in Cumbria claiming either JSA or Universal Credit (those not in employment but required to seek work), a fall of 85 from last month.
- Nationally the non-seasonally adjusted claimant count fell by 7,180 from last month.
- The claimant count in Cumbria is 70 lower than a year ago but rose by 21,055 nationally;
- The claimant count fell from last month in Allerdale (-30), Carlisle (-40), Copeland (-10) and Eden (-15) but rose in Barrow (+10) and was unchanged in South Lakeland;
- The claimant count in Allerdale, Barrow, Copeland and South Lakeland is lower than a year ago but it is higher in Carlisle and Eden as well as nationally;
- The claimant rate in Nov 2016 in Cumbria was 1.5% which is unchanged from last month and is 0.3 lower than the national rate of 1.8%;

- Barrow has the highest number of claimants at 1,120 and also the highest rate at 2.7%;
- Claimant rates are above the national average in Barrow (2.7%) and Copeland (2.0%);
- Claimant rates for all age groups under 40 years are higher than nationally in Allerdale, Barrow and Copeland.

Job Postings

- There were 8,673 job postings in Cumbria in the quarter to Oct2016, 749 fewer than in the previous quarter which is a fall of 11.1% (UK -11.9%);
- The Carlisle area accounted for 33.7% of all job postings (2,282 postings);
- Human health had the highest number of postings with 1,506 (29.5%);
- Business & public service associate professionals were the most in demand occupation (864, 10%) followed by health professionals (807, 9.3%);
- Communication (32.9%) and organisational skills (23.1%) were the most commonly mentioned baseline skills with customer service (11.4%) and business management (8.5%) the most common specialised skills;
- The National Health Service placed the highest number of postings (535, 13.1%) followed by Centre Parcs (55, 1.3%);
- The highest proportion of jobs fell into the £20,000-£29,000 salary range (27.4%) with the mean advertised salary being £32,009;
- The most frequently required qualifications were bachelor's degree (30.8%) and GCSE/NVQ2 (29.6%).

Business Start-Ups & Companies House Incorporations

- There were 455 business start-ups in Cumbria in the quarter to Oct 2016, 97 fewer than in the previous quarter and 132 fewer than the same quarter last year;
- Start-ups in the third quarter of 2016 are the lowest they've been since the dataset began in 2008, the same trend has been seen nationally;
- The highest number of start-ups was in South Lakeland where there were 101 (22%);
- The sector with the highest number of start-ups was real estate, professional services & support services with 107 (24% of all start-ups);
- Barrow had the highest start up rate per 100 active enterprises with 14 starts per 100 active enterprises while Eden had the lowest at 7 per 100 active enterprises (England 18);
- South Lakeland and Eden had the highest start up rates as a proportion of working age residents with 86 and 83 per 10,000 working age residents respectively. Copeland had the lowest with 49 starts per 10,000 working age residents (England 114);
- There were 155 new Companies House incorporations in Cumbria in Oct 2016, down by 6 from the previous month and down by 23 from the same month last year;
- Carlisle had the most new incorporations (40) followed by South Lakeland (36).

2. NATIONAL LABOUR MARKET OVERVIEW

- Between May to July 2016 and August to October 2016, the number of people in work was little changed, the number of unemployed people decreased, and the number of people not working and not seeking or available to work (economically inactive) increased.
- There were 31.76 million people in work, little changed compared with May to July 2016 but 342,000 more than for a year earlier.
- There were 23.20 million people working full-time, 235,000 more than for a year earlier. There were 8.56 million people working part-time, 107,000 more than for a year earlier.

- The employment rate (the proportion of people aged from 16 to 64 who were in work) was 74.4%, slightly down from the joint record high of 74.5% recorded for May to July 2016 but higher than for a year earlier (73.9%).
- There were 1.62 million unemployed people (people not in work but seeking and available to work), 16,000 fewer than for May to July 2016 and 103,000 fewer than for a year earlier.
- There were 888,000 unemployed men, 13,000 fewer than for May to July 2016 and 53,000 fewer than for a year earlier.
- There were 728,000 unemployed women, little changed compared with May to July 2016 but 49,000 fewer than for a year earlier.
- The unemployment rate was 4.8%, down from 5.2% for a year earlier. It has not been lower since July to September 2005. The unemployment rate is the proportion of the labour force (those in work plus those unemployed) that were unemployed.
- There were 8.91 million people aged from 16 to 64 who were economically inactive (not working and not seeking or available to work), 76,000 more than for May to July 2016 but 56,000 fewer than for a year earlier.
- The inactivity rate (the proportion of people aged from 16 to 64 who were economically inactive) was 21.7%, higher than for May to July 2016 (21.5%) but lower than for a year earlier (21.9%).
- Average weekly earnings for employees in Great Britain in nominal terms (that is, not adjusted for price inflation) increased by 2.5% including bonuses and by 2.6% excluding bonuses compared with a year earlier.

4. CLAIMANT COUNT (JSA & Out of Work Universal Credit Claimants)

The claimant count in Cumbria in Nov 2016 was 4,385 persons, a fall of 85 from Oct. The claimant rate was unchanged at 1.5% which is below the UK rate of 1.8%. However, rates in Barrow and Copeland are above the national average (2.7% and 2.0% respectively). The non-seasonally adjusted count fell in all areas of Cumbria except Barrow where it rose by 10 and South Lakeland where it was unchanged. The count also fell nationally.

Compared to a year ago, Cumbria's claimant count has fallen by 70 which is a fall of 1.5% compared to a rise of 2.9% nationally. Allerdale, Barrow, Copeland and South Lakeland have all seen falls from a year ago but Carlisle and Eden have seen a rise in the claimant count compared to a year ago.

4. NATIONAL JOBLESS DATA (survey based, includes non-claimants)

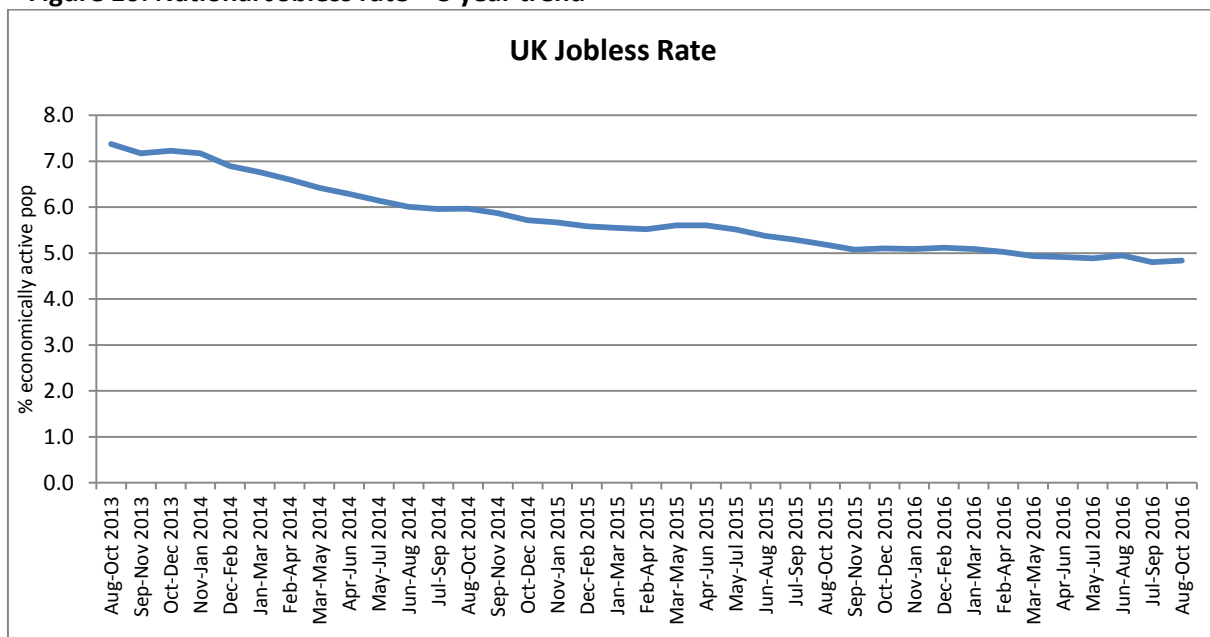

The jobless total for the UK is calculated via the Labour Force Survey and measures claimants and non claimants who did not have a job but were actively seeking work in the previous 4 weeks and were available to start work. Jobless rates calculated from the survey use the economically active population as the denominator (ie those in work plus those actively seeking work). Due to sample sizes, no data are available for areas such as Cumbria.

Figure 9: National Jobless count – 3 year trend

Source: ONS Labour Force Survey

Figure 10: National Jobless rate – 3 year trend

Source: ONS Labour Force Survey

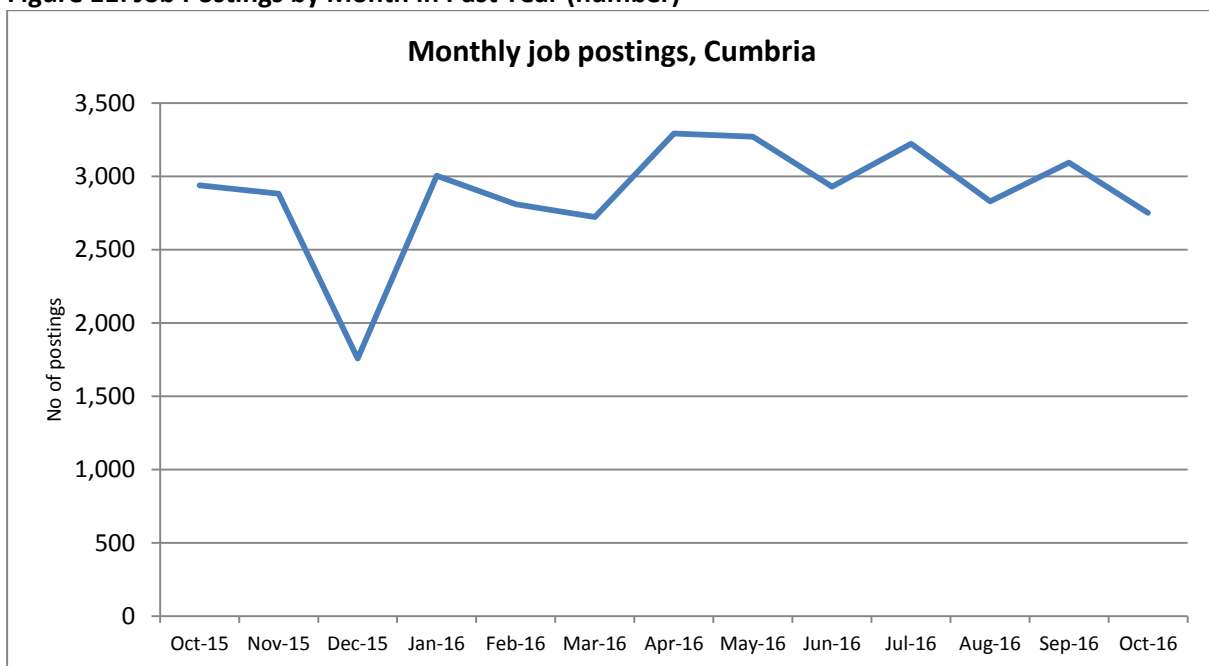

5. JOB POSTINGS

The following data are drawn from Labour Insight, an interactive tool which delivers real time access to job postings from a comprehensive range of sources including job boards, employer sites, newspapers, public agencies etc. Data extraction and analysis technologies mine and code data from each job listing to provide analysis on industries, occupations, skills and qualifications. The tool will inevitably not capture all vacancies and in particular is likely to under-represent vacancies in sectors which typically do not utilise online or formal recruitment methods. On the other hand it captures advertisements from agencies seeking to add people to their registers when there may not be a specific vacancy available which may over represent the situation in those sectors which make widespread use of recruitment agencies and “bank” workers.

In the period Aug-Oct 16, there were 8,673 job postings in Cumbria which is 749 fewer than were placed in the previous quarter (May-Jul 16), a fall of 11.1% locally compared to a fall of 11.9% nationally.

The volume of postings dipped significantly in November and December which is a trend seen in previous years but rose again in the new year and has fluctuated since then.

Figure 11: Job Postings by Month in Past Year (number)

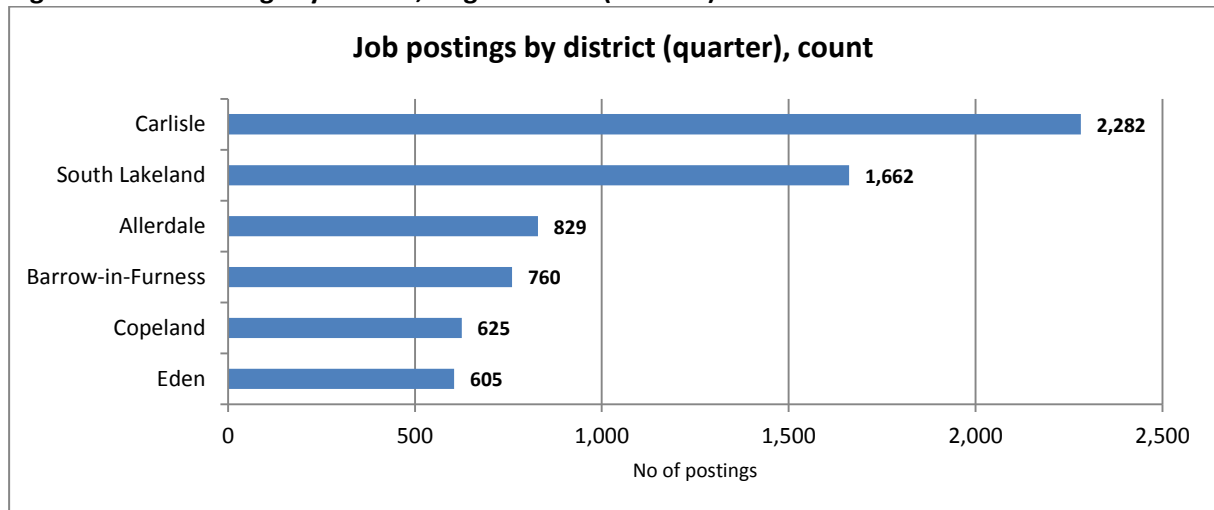

Source: Labour Insight (Burning Glass Technologies)

Location of job postings

Geographically the highest number of postings in the quarter was for opportunities in Carlisle where there were 2,282 postings in the quarter, 34% of all the postings in Cumbria. The second highest number of postings was in South Lakeland (1,662) with 24% of the total.

Figure 12: Job Postings by District, Aug-Oct 2016 (number)

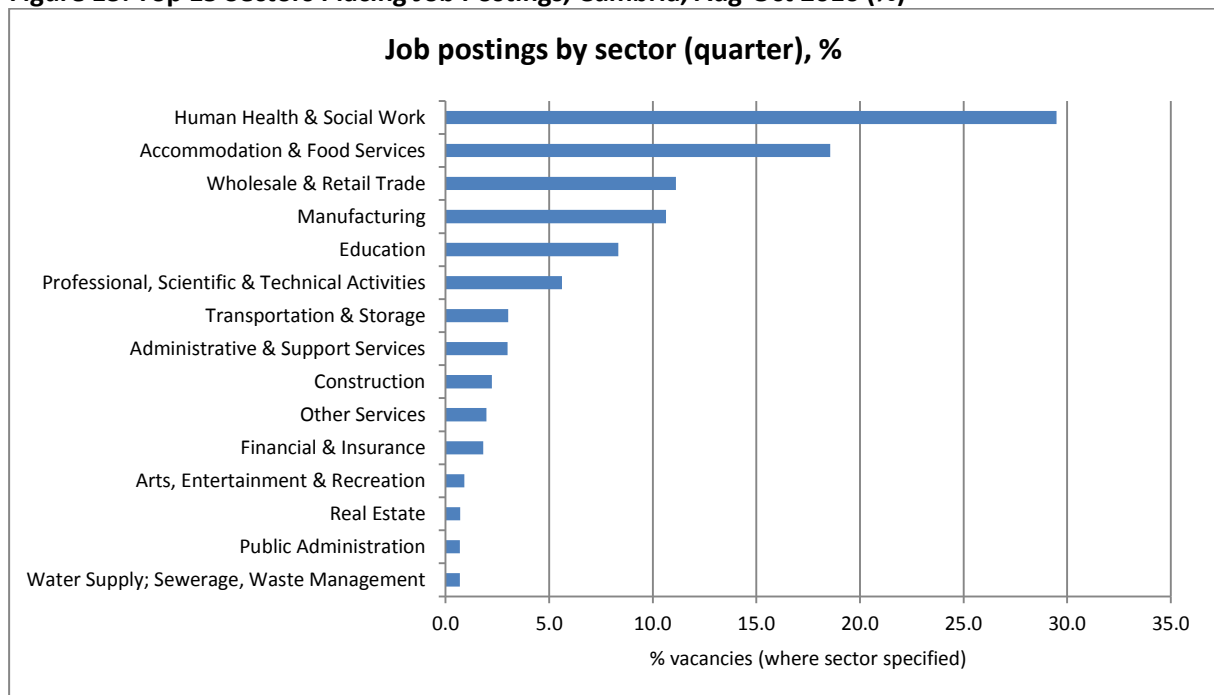

Source: Labour Insight (Burning Glass Technologies)

NB: may not sum to county total as district could not be coded for all postings

Sector of job postings

The highest number of postings was in the human health & social work sector (1,506 postings) which represented over a quarter of postings where a sector could be identified (29.5%). The next most common sectors were accommodation & food (948, 18.6%) and wholesale & retail (568, 11.1%).

Figure 13: Top 15 Sectors Placing Job Postings, Cumbria, Aug-Oct 2016 (%)

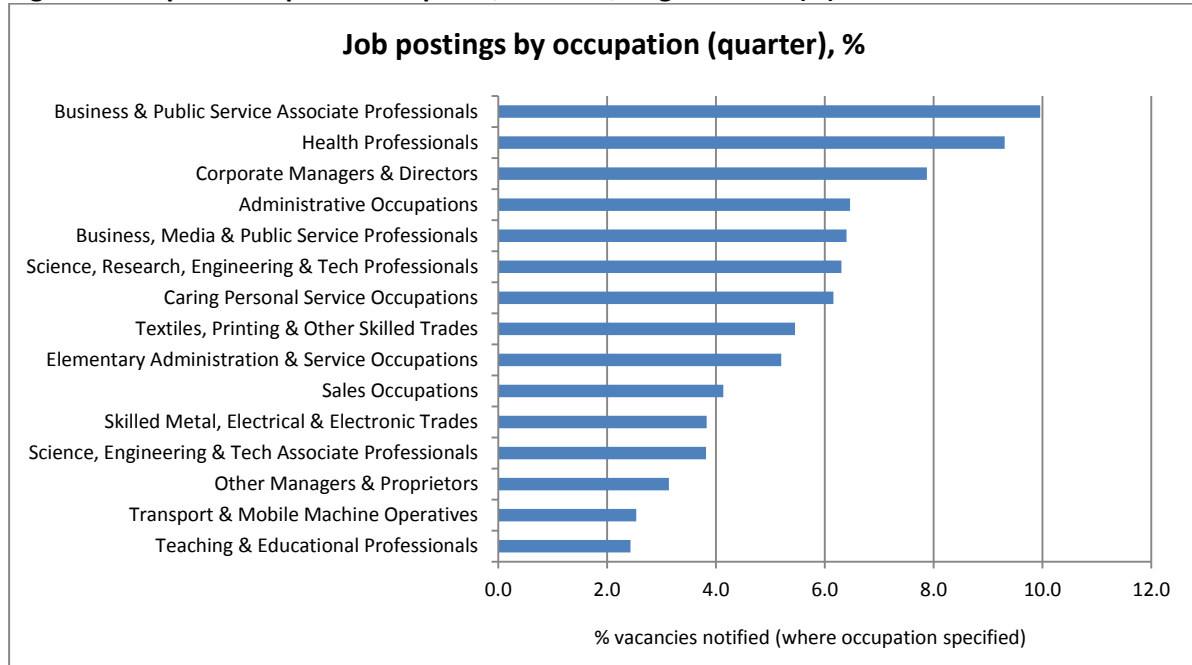

Source: Labour Insight (Burning Glass Technologies)

Occupation of job postings

The most common occupations specified were business & public service associate professionals (864, 10%), health professionals (807, 9%), corporate managers & directors (683, 8%).

Figure 14: Top 15 Occupations Required, Cumbria, Aug-Oct 2016 (%)

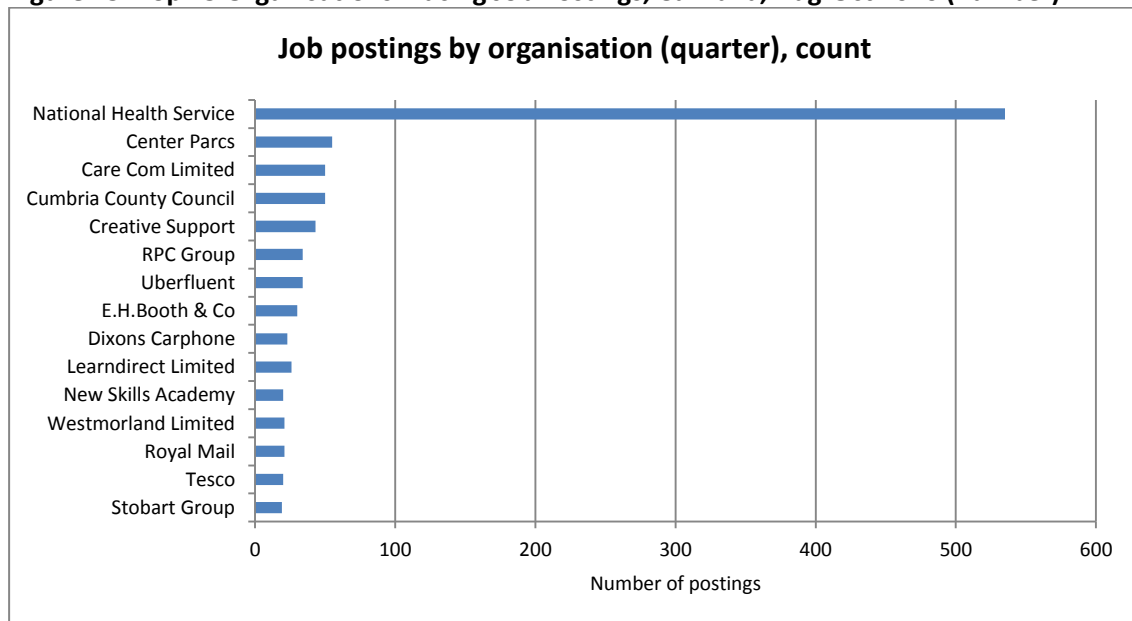

Source: Labour Insight (Burning Glass Technologies)

Organisations placing job postings

The organisation placing the most job postings in the quarter was the National Health Service with 535 postings (13%) followed by Centre Parcs with 55 (1%).

Figure 15: Top 15 Organisations Placing Job Postings, Cumbria, Aug-Oct 2016 (number)

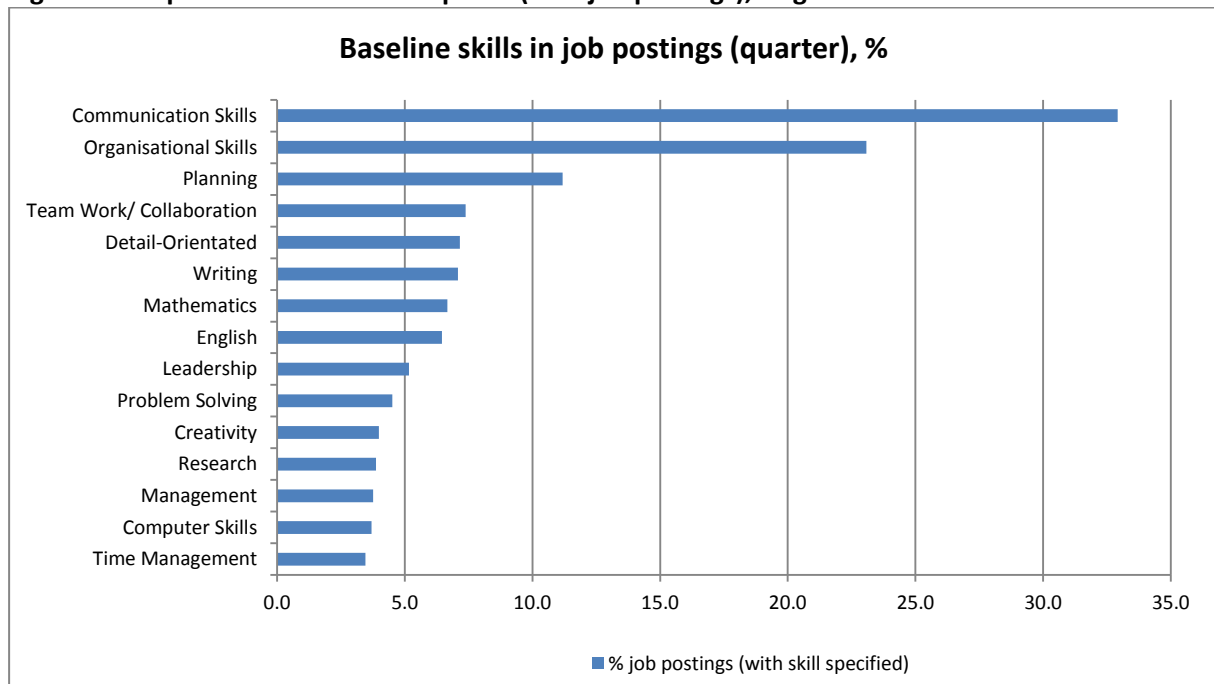

Source: Labour Insight (Burning Glass Technologies)

Skills mentioned in job postings

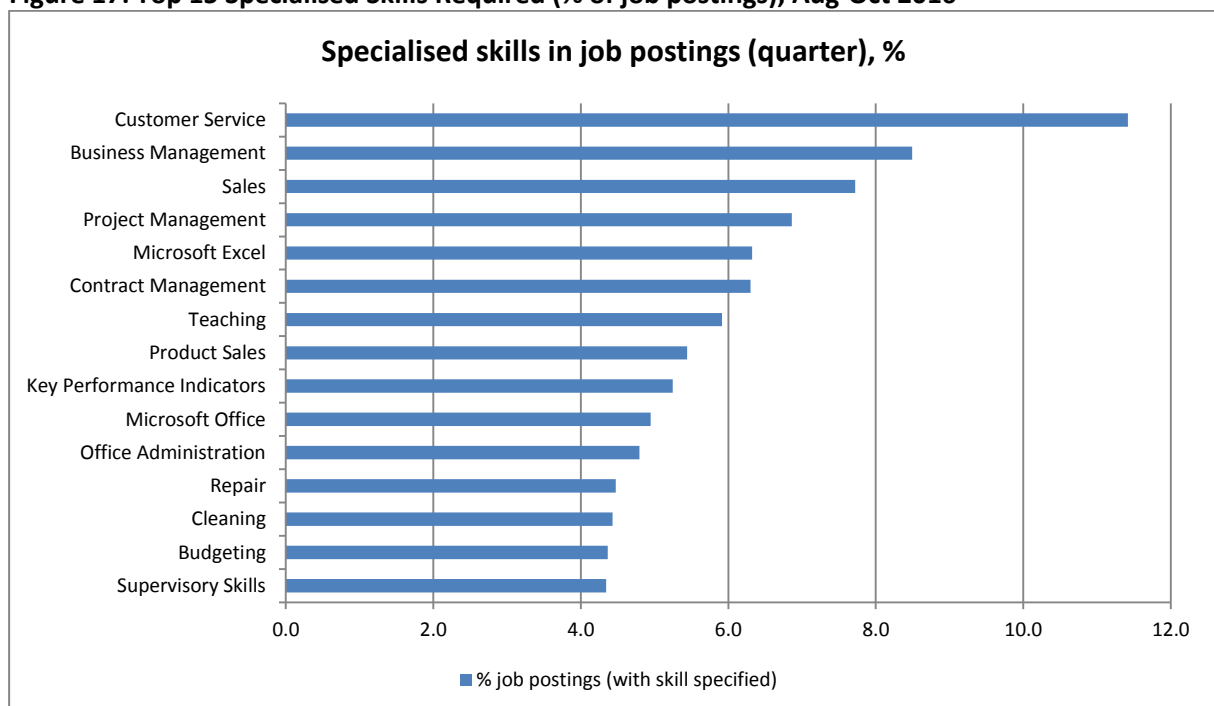

The most common baseline skills mentioned in the quarter were communication (1,628 mentions, 32.9% of all postings with skills specified) and organisational skills (1,134, 23.1%) whilst the most commonly mentioned more detailed skills were customer service (11.4%) and business management (8.5%).

Figure 17: Top 15 Specialised Skills Required (% of job postings), Aug-Oct 2016

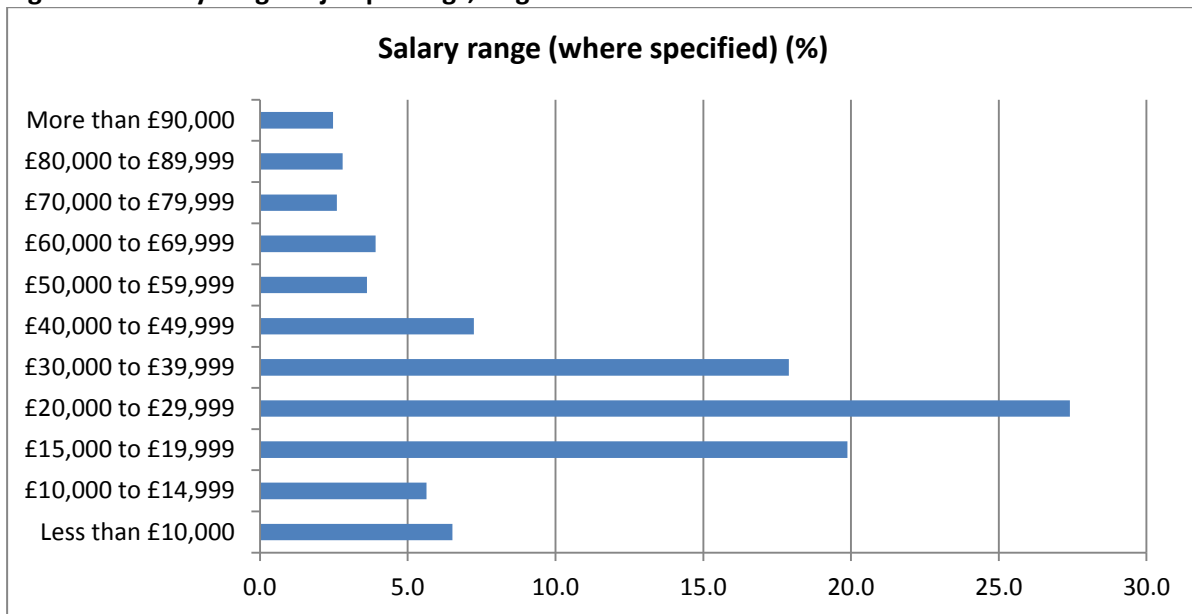

Source: Labour Insight (Burning Glass Technologies)

Salaries offered in job postings (where provided)

Only around half the postings identified a salary range but where they did, the highest proportion fell into the £20,000-£29,999 range (27.4%) followed by the £15,000-£19,999 range (19.9%) and the £30,000-£39,999 range (17.9%). The mean salary quoted was £32,009.

Figure 18: Salary range in job postings, Aug-Oct 2016

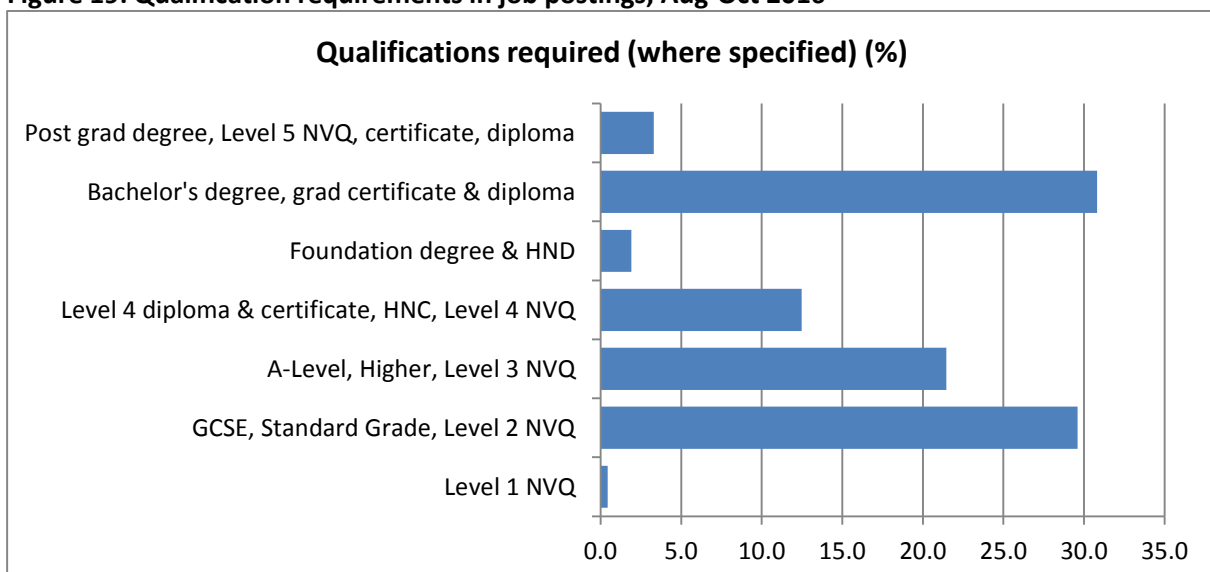

Source: Labour Insight (Burning Glass Technologies)

Qualification requirements in job postings (where provided)

Only around 1 in 6 job postings referred to the qualifications required for the job but where they did so, the most frequently mentioned were bachelor's degree level (30.8%) and GCSE level (29.6%).

Figure 19: Qualification requirements in job postings, Aug-Oct 2016

Source: Labour Insight (Burning Glass Technologies)

Note: The tool relies on data contained within job postings when analysing skill needs, qualifications etc and this may be limited by the accuracy and detail contained within the original advertisement. For example, the system can allocate an occupation in the majority of instances but is unable to allocate an industry in approximately a third of cases. Therefore the totals for each may vary and proportions presented here are of postings where the relevant coding has been possible.

6. BUSINESS START UPS

The following data are from BankSearch, a survey which collects data from Barclays, Co-operative Bank, HSBC, Lloyds Banking Group, Royal Bank of Scotland Group, Santander and TSB Bank. A 'start-up' reflects the opening of a first current account from a small business banking product range by a business new to banking or previously operated through a personal account. The data exclude businesses operating through personal accounts, those without banking relationships or those banking with other institutions.

There were 455 business start-ups in Cumbria in the quarter Aug-Oct 16. This is 97 fewer than in the previous quarter (Apr-Jun 16), a fall of 17.6% compared to a fall of 5.4% for England and the lowest quarterly figure in Cumbria since the dataset began in Jan 2008. The highest number of start-ups in the quarter was in South Lakeland (101, 22.2% of all start-ups) followed by Carlisle (97, 21.3%).

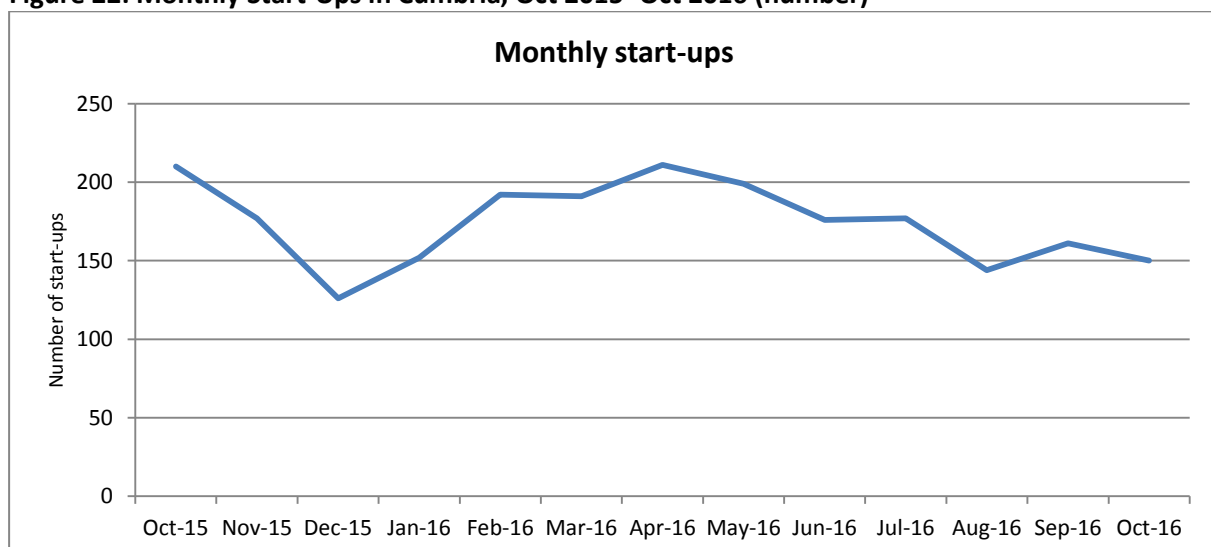

Figure 21: Quarterly Start-Ups by District, Aug-Oct 2016 (number)

Source: BankSearch

The number of starts peaked in Spring 2016 but has started to drop away which is the usual pattern at this time of year. However, levels in the first half of 2016 are the lowest in Cumbria since this dataset began back in 2008, a finding which is also mirrored nationally.

Figure 22: Monthly Start-Ups in Cumbria, Oct 2015- Oct 2016 (number)

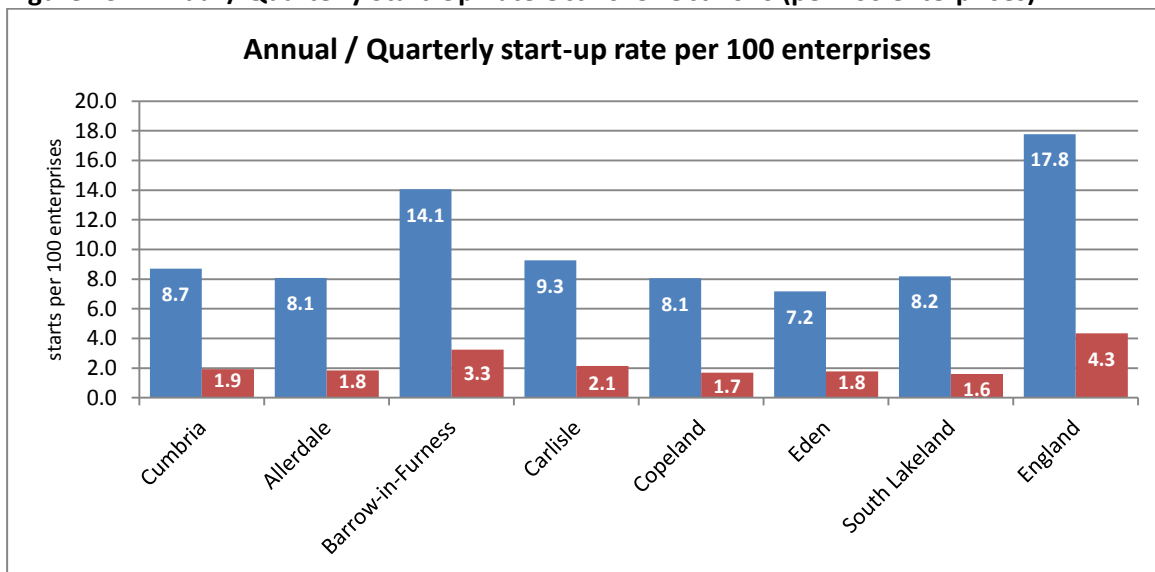

Source: BankSearch

The annual rate of business start-ups can be expressed in 2 ways. Firstly, as a proportion of the active business stock. This measure is influenced by the business structure and areas with a relatively small stock of active businesses will generally show higher start up rates than those with large volumes, often of small, businesses. The second method is start-ups per 10,000 working age people and is sometimes regarded as a better indicator of entrepreneurship amongst local residents.

Using the first methodology of starts per 100 enterprises (which is the Office for National Statistics' preferred measure) Barrow had the highest annual start up rate at 14.1 per 100 active enterprises while Eden had the lowest at 7.2 per 100 active enterprises. This compares to 17.8 for England.

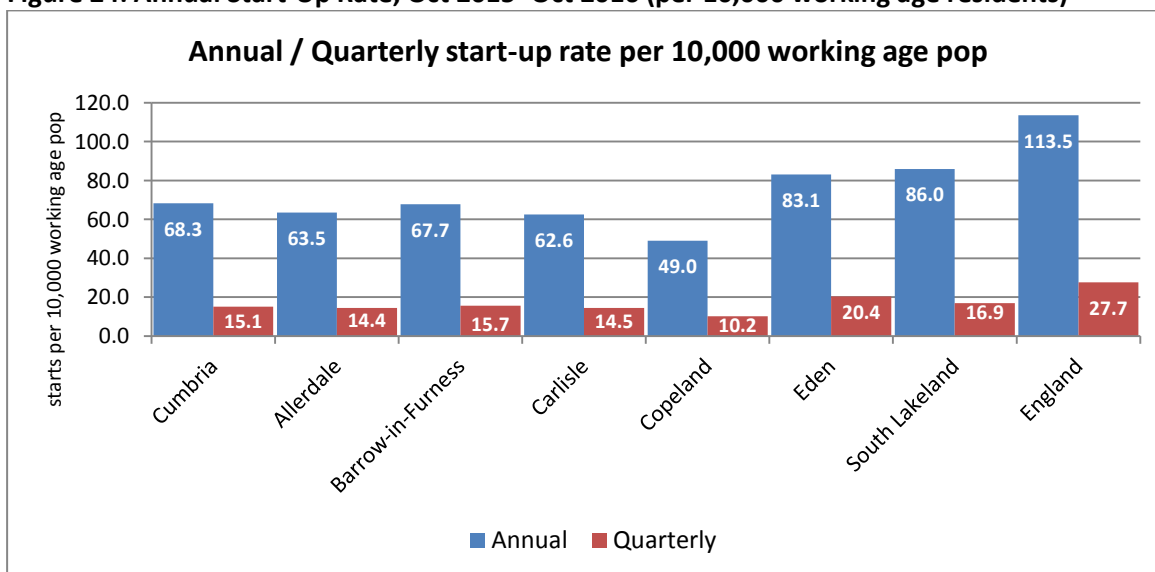

Figure 23: Annual / Quarterly Start-Up Rate Oct 2015- Oct 2016 (per 100 enterprises)

Source: BankSearch / UK Business: Activity, Size and Location 2014

Using the second methodology (starts per 10,000 working age residents), the position is different with South Lakeland having the highest annual start up rate at 86 per 10,000 working age residents and Copeland the lowest at 49. This compares to 113.5 for England.

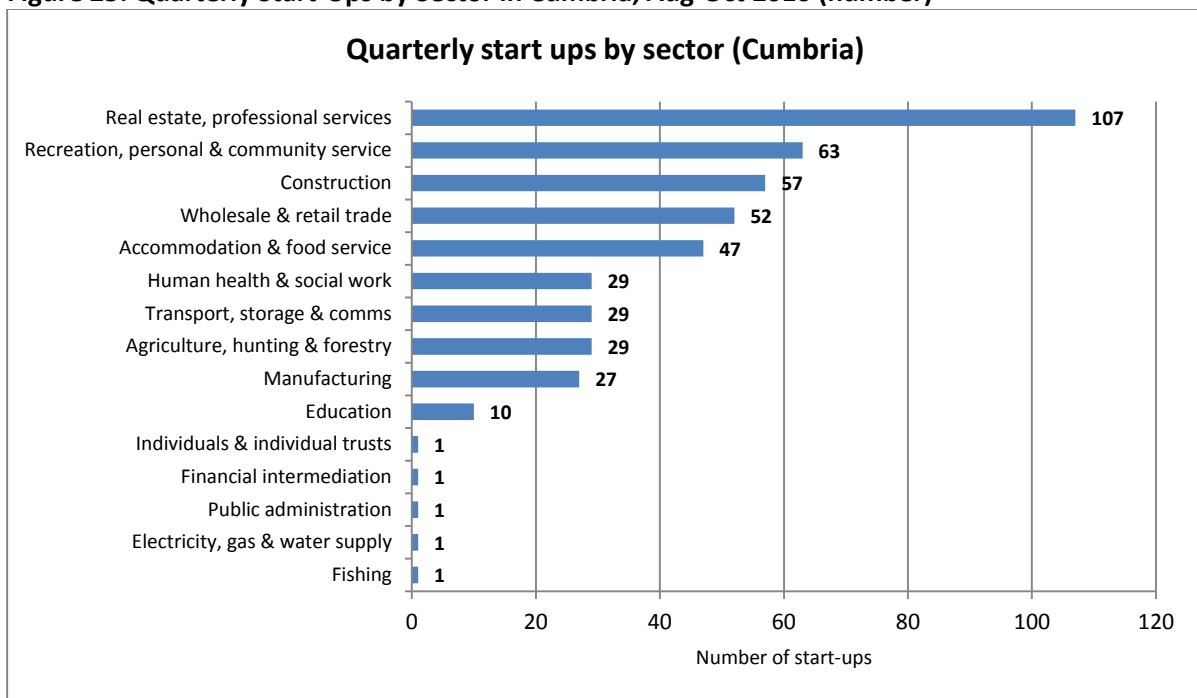

Figure 24: Annual Start-Up Rate, Oct 2015- Oct 2016 (per 10,000 working age residents)

Source: BankSearch / ONS Mid Year Population Estimates 2013

As is generally the case, the highest number of start-ups was in the real estate & professional services sector with 107 (23.5%). This was followed by recreation, personal & community services with 63 (13.8%) and construction with 57 (12.5%). Most sectors saw a fall in start-ups compared to last quarter with the biggest numerical falls in real estate, professional services (-42), recreation, personal & community services (-29) and construction (-18).

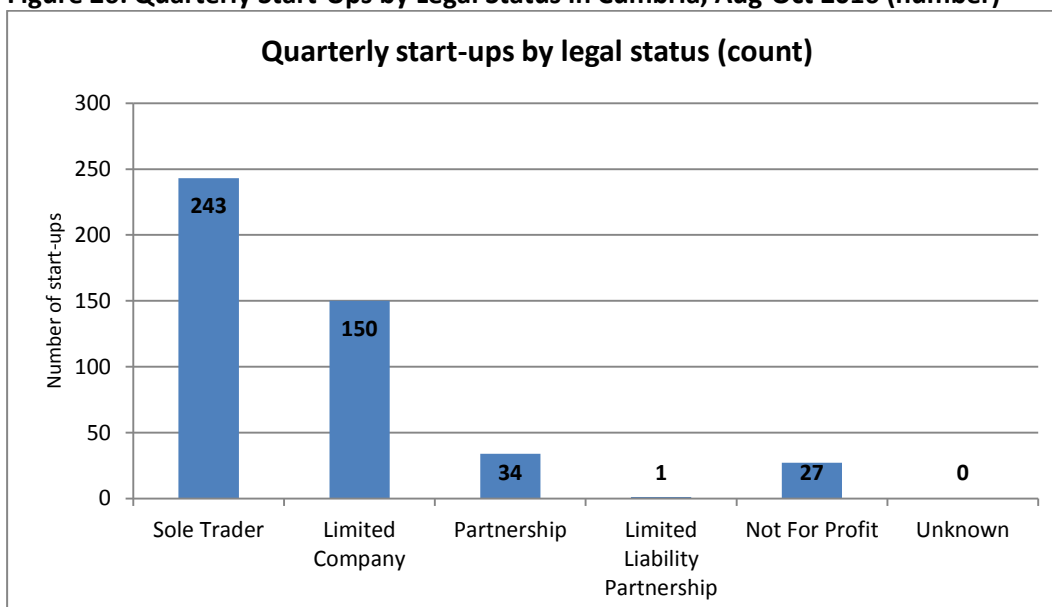

Figure 25: Quarterly Start-Ups by Sector in Cumbria, Aug-Oct 2016 (number)

Source: BankSearch

Limited Companies provided the highest number of start-ups (243) accounting for half of the total (53.4%) followed by Sole Traders with 150 start-ups (33.0%).

Figure 26: Quarterly Start-Ups by Legal Status in Cumbria, Aug-Oct 2016 (number)

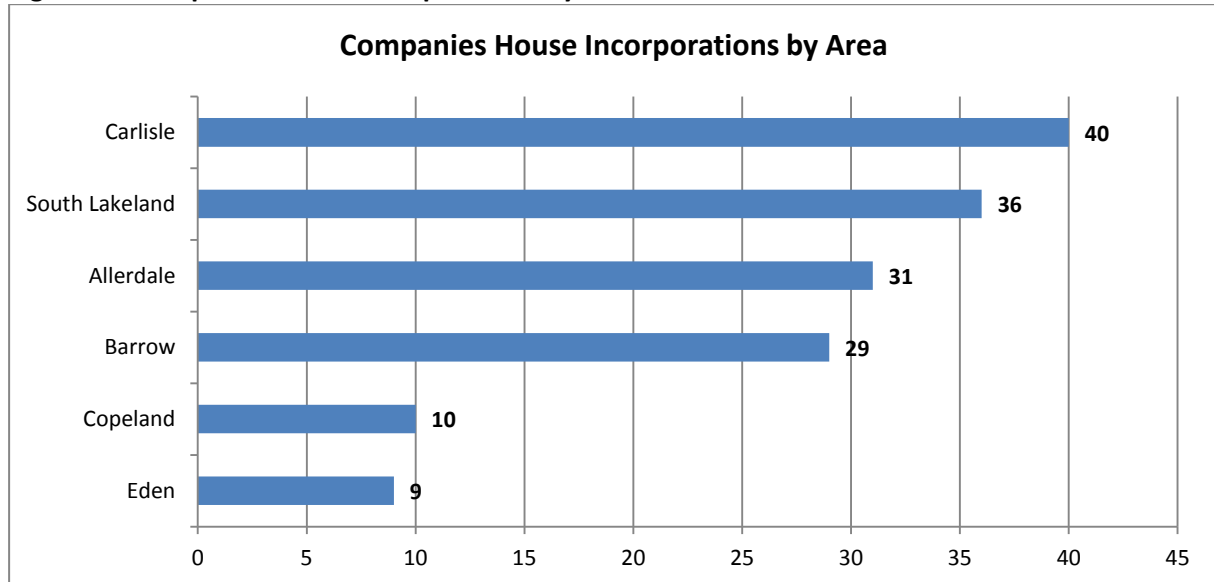

Source: BankSearch

7. COMPANIES HOUSE INCORPORATIONS

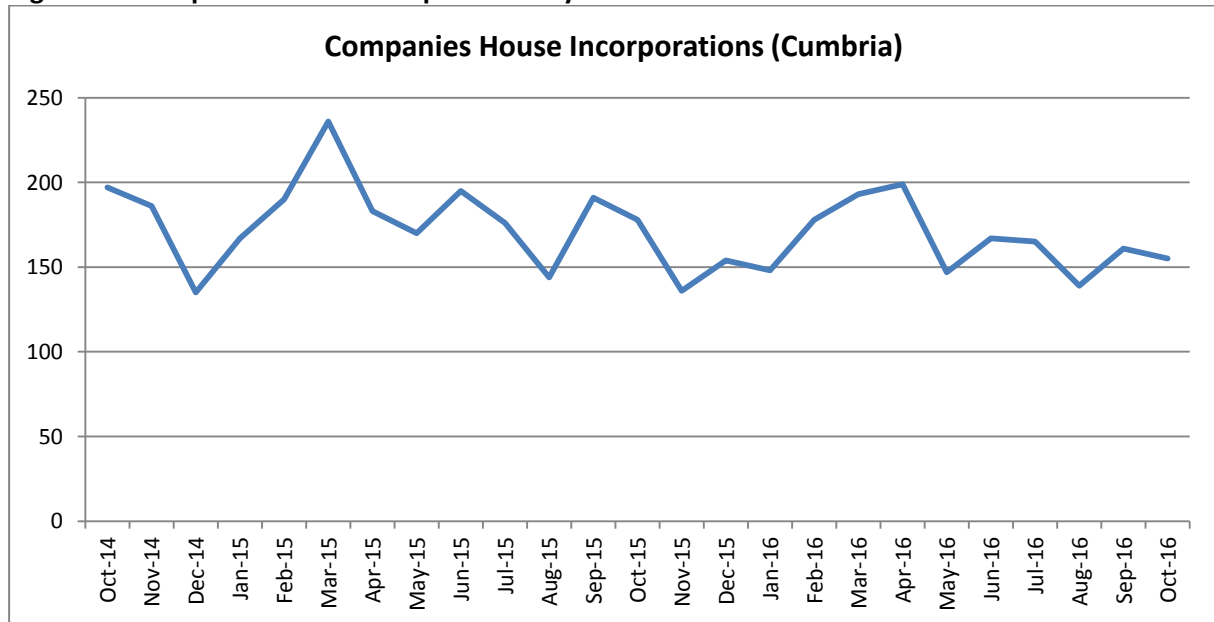

There were 155 new Companies House incorporations in Oct 2016, down by 6 from the previous month and 23 fewer than the same month last year. The highest number was in Carlisle (40), followed by South Lakeland (36). There is a lot of fluctuation in monthly totals but historically there are peaks in March and September and then a dip in summer and in the run up to Christmas.
