

Signs of Safety 2-day Introductory Training

Signs of Safety is an innovative strength based, solution focused approach to working with children and families, grounded in partnership and collaboration with families and professionals.

Signs of Safety is our approach to practice with children and families in Cumberland. Signs of Safety will provide a consistent practice model for all workers to achieve positive and successful outcomes for children and young people in Cumberland.

What will be covered?

- An overview of the principles, disciplines, tools, and processes of Signs of Safety practice.
- Interactive experience of the application of the principles and disciplines of Signs of Safety using live case examples.

Who should attend?

The Signs of Safety 2-day Introductory Training is available for all frontline staff and managers at all levels who work with children and families and have not already completed the two-day training or feel they would benefit from a refresh. Colleagues from partner agencies will be allocated a set number of places.
