

The Solway Coast

The Solway Coast has a secluded and timeless quality. It has been relatively unchanged since being designated an Area of Outstanding Natural Beauty (AONB) in 1964.

The area is of international importance for bird life, rare plants and its vast array of different habitats which provide homes for many animals.

The extensive raised peat bogs, the rich grazing of the salt marshes, the winding tidal creeks, the huge flocks of wildfowl and expansive skylines across the mudflats, all contribute to the Solway Coast's unique character.
