

Figure 1: Millom & Duddon Valley ICC with Indices of Deprivation 2015

(c) Crown Copyright and Database Right, 2017 Ordnance Survey Licence Number 100019596

Key issues

- Older population projected to increase; working age population projected to decrease in the district (Copeland)
- Hospital stays for alcohol related harm are above the national average
- Childhood obesity is worse than the national average
- Elective hospital admissions for hip replacements are above the national average
- Life Expectancy and Healthy Life Expetancy in the district (Copeland) is below average
- Deaths from circulatory disease, under 75 years, are worse than the national average
- Greater % of patients on GP Registers with: hypertension; diabetes; asthma; and dementia than the national average

Key: Text in blue refers to registered population; text in black refers to resident population. Where possible, comparisons with South Cumbria have been included; as well as benchmarking data against the England average.

Table 1: Demographics, Millom & Duddon Valley ICC

	ICC
Registered Population (total combined GPs within ICC)	11,767
Mid-Year Population, ONS 2015 (calculations based on % within ICC)	11,068
% 0-19 years	19.0%
% 15-64 years	61.9%
% 65+ years	24.0%
% 85+ years	2.7%
Black and Minority Ethnic (BME) Population (%)	1.5%
Population whose ethnicity is not 'White UK' (%)	2.9%
Proficiency in English (% of people who cannot speak English well or at all)	0.2%
Provision of 1 hour or more unpaid care per week (%)	11.9%
Provision of 50 hours or more unpaid care per week (%)	2.9%
