Margaret Williams, Chief Nurse, Morecambe Bay CCG						

Item	Action	To Whom
1. Apologies, Introductions	<p>Apologies for Absence</p> <p>Apologies for absence were noted.</p>	
2. Minutes of Last Meeting – 15 May 2018	<p>Minutes of Last Meeting</p> <p>The minutes of the last meeting held on 15 May 2018, were agreed as an accurate record.</p> <p>Matters Arising</p> <p>Lay Member Interviews – it was noted that following 2 advertisements, no interest had been shown. Given that the new Working Together 2018 has now been issued and there is no reference to having Lay Members, what do the Board wish to do?</p> <p>Action: when the 3 Safeguarding Partners agencies meet to discuss the future way forward for safeguarding working arrangements, JMacilwaith to ensure the issue of Lay Members is also discussed.</p> <p>Cumbria Workforce – JMacilwaith advised that this information/meeting is in the process of being arranged.</p> <p>Care Quality Commission (CQC) – it was noted that the CQC are currently looking at services in NCUHT.</p> <p>Emotional Health and Well-Being Audit and Verbal Update from CCox – it was noted that CCox is not in attendance today. LMason-Lodge advised that she is seeking assurance regarding any revised arrangements. Meetings are being held and she appreciates that there is a procurement process that the County Council must follow, however the LSCB has had very little oversight. She is unsure how the LSCB will receive this assurance. It is on the agenda for September Board meeting, but this may be too late. JMacilwaith advised CCox has held meetings but he does not know what the specification looks like and the LSCB does need CCox to come and discuss at a point where the LSCB can still provide influence. The LSCB need to be sure safeguarding is dealt with.</p> <p>Action: report to be circulated virtually to the Board and agenda for September meeting. JMacilwaith to ensure CCox actions this.</p> <p>Letter from Chair of Quality Assurance Group (QAG) to Various Agencies – FMusgrave advised there was better representation at the last meeting of the Group and</p>	<p>JMacilwaith 18/09/18</p> <p>JMacilwaith/ CCox SMitchell 18/09/18</p>

	<p>FMusgrave will ensure this has been dealt with.</p> <p>Signs of Safety (SoS) – it was noted that this group now reports to the Business Group.</p> <p>Task & Finish Group – Demand – it was noted that a meeting has now been held and was chaired by LBerryman. They are working towards holding a workshop in the Autumn and further meetings are taking place regarding how to raise the profile and ensure work is being undertaken. They have discussed what they want to achieve and how to be more strategic. National Institute for Health and Care Excellence (NICE) Guidelines regarding child abuse has now come out and they are looking to linking with the author of the guidelines. The Board noted the reference to Child Abuse as distinct from the terminology of Child Protection or Safeguarding.</p> <p>Letter to Lancashire– it was noted that this action is now complete.</p> <p>Suicide Prevention Group – it was noted that this action is now complete.</p> <p>Risk Register – it was noted that the Risk Register has been updated.</p>	
<p>3. Child Death Overview Panel (CDOP) Annual Report</p>	<p>FMusgrave referred to the report circulated and provided a brief outline. Some work remains to be included regarding learning and modifiable deaths. The numbers of child deaths for Cumbria is very small and one area the Panel are working on is to sign off any deaths under 6 months.</p> <p>It was noted that a further update regarding the planned changes to CDOP's in Working Together 2018 is still awaited.</p> <p>LMason-Lodge advised advanced care planning is an issue that continues to arise and it is important to be aware of any local issues and in terms of any update from CDOP about plans for promoting advanced care planning and where agencies can provide support around that particular issue.</p>	
<p>4. LSCB Business Report</p>	<p>Domestic Abuse</p> <p>It was noted that the Terms of Reference have now been signed off.</p> <p>There are some issues regarding the task and finish groups in ensuring they are purposeful but this is being taken forward.</p> <p>Performance Management & Quality Assurance (PMQA)</p>	

	<p>Last meeting focused on the scorecard which will be reviewed along with other data.</p> <p>A review of a number of indicators took place:-</p> <ul style="list-style-type: none"> • Child Protection(CP) plans are high • Repeat plans are high • Children looked after(CLA) numbers are increasing • Children looked after outside Cumbria increasing • Number of green RAG indicators improving/static trend fallen • Timeliness of Child and Adolescent Mental Health Service (CAMHS) patients in 35 days is an issue. <p>Recommendation 1: LSCB Members are asked to note this performance and ensure agencies take appropriate action. This was noted.</p> <p>Challenge to partners and level of demand for mental health and emotional well-being services having an impact on the whole system.</p> <p>Recommendation 2: Members should note that the LSCB is planning a “Demand” workshop/summit in the Autumn to address these issues. This was noted.</p> <p>Policy & Procedures Sub-Group</p> <p>Policy and Procedures will be refreshed and going live in August. It was noted that going with Tri-x was seen as good value for money and MBaxendale and HMurphy do a fantastic job ensuring updates are carried out. They were thanked for this.</p> <p>Those accessing the manual in the West and South of the County were significantly fewer than in the North.</p> <p>Recommendation 3: LSCB Members are asked to note and take action. The LSCB will be publishing a 5 minute briefing to highlight the manual again, once the new version is live. This was noted.</p> <p>Case Review Sub-Group</p> <p>A recent case was discussed and chronologies received and the decision came down to the severity and extent of the injuries which are unknown at present. This information needs to be urgently provided. A Learning Review will be held which can be stepped up to a Serious Case Review should more detailed information become available.</p>	
--	--	--

	<p>A further case was discussed which has cross boundaries issue.</p> <p>Challenge 1: to LSCB Members and the wider strategic partnership regarding the apparent lack of progress with domestic homicide reviews and specifically the adult/child interface. This has been acutely challenged and noted that it is difficult to see how this can be taken forward.</p> <p>SWard, FMusgrave and Simone Eagling have met and agreed Safer Cumbria, Cumbria Safeguarding Adults Board, the Health & Wellbeing Board and the Childrens Trust Board need to bring information together and quickly identified a list of about six issues that cut across all boards. Domestic Abuse is a priority across all Boards - others included substance misuse and modern slavery. They also discussed having a pool of Review authors who could undertake domestic homicide reviews. It is not a small piece of work but someone within Adult Social Care is undertaking mapping and someone who is seconded to the Police and Crime Commissioners (PCC)'s Office from the National Crime Agency would like to be involved from a Safer Cumbria perspective. The plan would be to draw up a proposal to take to all five Boards which would set the pattern for future working together.</p> <p>LMason-Lodge said the LSCB is now into the second year of awaiting the domestic homicide review. Where is the challenge, where can it come from and where does it go to? All reviews are about learning and displaying public accountability. That piece of work is imperative but the LSCB does need to know about the domestic homicide review. It is a case for adults but there are clear issues about the child/adult interface and there is learning for the Board. We cannot get this until there is assurance that the process has been completed.</p> <p>GRigg said this Board is a clear stakeholder in that area.</p> <p>Action: SWard/LMason-Lodge to draft a letter for GRigg to send to Safer Cumbria from the LSCB regarding the issue of the domestic homicide review.</p> <p><i>Safeguarding Hub</i></p> <p>Two Task & Finish Groups have been established to look at information sharing agreement and memorandum of understanding. No Further Action (NFA) data is being analysed for a future meeting due to concerns regarding skewed data.</p> <p><i>Child Sexual Exploitation (CSE)/Missing From Home Sub-Group</i></p>	<p>SWard/ LMason- Lodge 18/09/18</p>
--	---	--

	<p>A new CSE strategy for 2018-20 has been signed off.</p> <p>LMason-lodge referred to the document as being a CSE strategy but it would be helpful from an LSCB point of view if there was reference about other exploited groups. The LSCB do need to think about other vulnerable groups.</p> <p>It was agreed this could be signed off with the proviso for a "light touch" review to be undertaken and for it to be expanded and include exploited ad trafficked. Once refreshed, the strategy to be presented to the Safer Cumbria Board.</p> <p>Action: FMusgrave to take this back to the CSE Sub-Group.</p> <p>A CSE train the trainer event held last week was noted.</p> <p>Challenge 2: LSCB Members to identify staff from their agencies who could join the training pool. This was noted.</p> <p>Challenge 3: LSCB Members to ensure organisations provide feedback regarding Multi Agency Child Sexual Exploitation (MACSE) meetings. This was noted.</p> <p>JMacilwraith asked to see a more formalised review that reflects whether these are working locally and adding value and was the LSCB assured there is the right system in place?</p> <p>FMusgrave suggested a mini review of impacts, cases to offer assurance that multi-agency is working and a discussion with the Chair regarding the terms of reference.</p> <p>LMason-Lodge referred to children being exploited and placed out of county in unsuitable settings. This is an increasing area of concern. It is all about where the LSCB capture that focus which may not be in that group but that the process may inform some areas to focus on.</p> <p>Missing, Exploited and Trafficked (MET) Children Strategic Group have recommended the Working Group is stood down.</p> <p>Recommendation 4: LSCB to agree that the Working Group is stood down and a task and finish group format is used in its place. This was agreed.</p> <p>Signs of Safety (SoS)</p> <p>It was noted that mock Child Protection Conferences have taken place with a view to using the process consistently from September 2018. These have been well received.</p>	<p>FMusgrave 18/09/18</p>
--	--	-------------------------------

	<p>5 day intensive training will be taking place on 8-12 October and some places are still available for partners to purchase.</p> <p>Recommendation 4: LSCB members to consider sending practitioners to the training. This was noted.</p> <p>LSCB Annual Report</p> <p>LSCB Members considered the final Annual Report.</p> <p>Recommendation 5: LSCB Members are asked to consider the Annual Report and sign off for 2017-18.</p> <p>It was agreed the Annual Report could be signed off and will be published on the LSCB Website.</p> <p>GRigg wished to note the Board’s thanks to the LSCB Team for their hard work in the preparation of the Annual report and thought it was excellent.</p> <p>LSCB Business Plan</p> <p>LSCB Members considered the draft Business Plan.</p> <p>Recommendation 6: LSCB Members are asked to consider the draft Business Plan and note it will be signed off at the September 2018 LSCB meeting. This was noted.</p> <p>GRigg referred to the updated Working Together 2018 which has now been published and that SoS are now reporting to the Business Group. Both of these should be included in the Business Pan.</p> <p>Action: FMusgrave to note these amendments.</p> <p>Action: Board Members to provide any comments to FMusgrave by 3 August. All comments to be provided in the narrative and not as track changes.</p> <p>LSCB Peer Review</p> <p>It was noted that given the delay in the publication of Working Together 2018, a decision was taken to defer the Local Government Association (LGA) Peer Review until September/October 2018.</p> <p>The proposed scoping for the re-named LGA “multi-agency safeguarding peer support and planning offer”:-</p> <ul style="list-style-type: none"> • Using workshops, focus groups and individual 	<p>FMusgrave 18/09/18 All 03/08/18</p>
--	--	--

	<p>conversations review the safeguarding arrangements for children (including structure of sub-groups and strategic priorities) in Cumbria against the requirements in Working Together 2018 (WT 2018)</p> <ul style="list-style-type: none"> • Explore opportunities to streamline sub-groups and processes for the LSCB and to further integrate the work of the Adult and Children’s Safeguarding functions to ensure compliance, efficiency and increased effectiveness • Help Cumbria develop a set of priorities and operating principles to ensure compliance with WT 2018 and integrate where appropriate • Facilitate a planning session to develop an aspirational 3 year plan (with agreed measures of impact) to take Cumbria into the new arrangements and beyond. <p>JMaciwraith asked a sentence be added as the first bullet point: “achieving consistently good improved outcomes for children”. This was agreed and FMusgrave will add as an additional bullet point.</p> <p>LMason-Lodge advised that there is a collaborative approach which is looking at priorities across all the Boards and suggests adding a recommendation to agree to work collaboratively.</p> <p>Recommendation 7: LSCB Members are asked to consider the draft scoping and sign off. This was agreed subject to suggested amendments above.</p>	<p>FMusgrave 18/09/18</p>
<p>5. Local Authority Designated Officer (LADO) Annual Report</p>	<p>FMusgrave referred to report circulated and provided brief outline.</p> <p>There were 223 allegations recorded by the LADO in the last year. Due to a change in legislation and staffing issues, it was noted that there was some poor recording during the early part of the year. This is being rectified. There is not much change in the updated WT 2018.</p> <p>The breakdown of allegations by employee type includes categories of harm. There were 92 allegations of physical harm which was slight increase on the previous year.</p> <p>The outcome of referrals table was noted with 71 being substantiated.</p> <p>The Key Priorities were noted.</p> <p>GRigg advised it was a very positive report.</p> <p>LMason-Lodge referred to 3.13 – the number of allegations increased and NFA to LADO increased – were there any actions from an agency point of view? FMusgrave said there</p>	

	<p>was a specific one for NCUHT and MBaxendale had picked this up. FMusgrave advised that this was in a period where we had agency LADO's and it has been noted that were some recording issues at that point.</p> <p>PHutton advised that from a voluntary sector point of view, it has lost a bit of momentum and she would like a clarification of the designated officer for the voluntary sector - it was agreed to clarify this and to promote within the Voluntary Sector Group.</p> <p>Members noted the contents of the report.</p>	
<p>6. CQC Update and Action Plan</p>	<p>LMason-Lodge referred to the report circulated and provided a brief outline.</p> <p>It was noted that Care Quality Commission (CQC) are currently in the north of the county at present and DCharlton will provide an update.</p> <p>The Board had asked about the CAMHS Improvement Plan and a Plan was circulated to the Business Group. The Business Group subsequently advised that because of the way it was writ, it did not give sufficient assurance.</p> <p>LMason-Lodge said in terms of the process, following the CQC visit to the CPFT, CAMHS were deemed as being inadequate and an improvement plan is being worked through within the Trust.</p> <p>In terms of current situation, CPFT and NCUHT agreed to come together in a joint executive approach. More recently, Esther Kirby was appointed as the Joint Executive Director Nursing, Midwifery & AHPs for the CPFT and NCUH. During this period both the Director of Nursing for NCUHT and CPFT both left to take up other positions and those posts are currently vacant. DCharlton is the Deputy director of Nursing for NCUHT. Work is ongoing to further align the two Trusts and all changes will be in place by 1 April 2019. They are also part of an integrated pilot approach looking at the integration of Health and Social Care.</p> <p>LMason-Lodge advised that the CCG as Commissioners are undertaking work regarding the future arrangements for mental health and learning disability provision in the County. There is a formal process in the public domain. The paper circulated today takes account of the concerns from the Board and the commissioner response in working with in terms of the delivery of longstanding issues within CAMHS.</p> <p>DCharlton advised that an unannounced CQC inspection took place last week involving maternity and children's services</p>	

	<p>and covered the North and West of Cumbria. No concerns have been raised as yet.</p> <p>The CQC arrived today for a further unannounced inspection in regarding emergency care services and some surgical and core medical services. Tomorrow they will be inspecting the same services in the West of the County and on Thursday coming back to North to do the same. 26 inspectors arrived today. There will also be an unannounced overnight inspection.</p> <p>JMacilwraith reflected that the CAMHS service remains a challenge. The LSCB need to ensure there is attendance at early help panels. There appears to be a number of discussions being held regarding CAMHS and following on from the Childrens Improvement Board (ChIB) previous fortnightly meetings were being held, led by himself and at the same time discussions were being held at the Emotional and Well-being Partnership Board and Children’s Trust Board. Is there a SMARTER way of addressing this?</p> <p>LMason-Lodge would endorse that view. Even around all those meetings and at times of organisational change, partners can become distracted by system change and the improvement journey for CAMHS is ongoing. This is a good challenge into the system.</p> <p>How to take forward in terms of assurance for this Board? JMacilwraith is happy to be involved in this and would like to keep it as a system wide conversation and lend the support of the County Council. This is about having the right conversation in the right place for collective ownership.</p> <p>Action: JMacilwraith to arrange a meeting involving Esther Kirby, Senior Commissioners, Colin Cox and himself to bring together this discussion on behalf of the LSCB.</p> <p>ABurns asked whether the waiting times for CAMHS services for children and young people has improved.</p> <p>Action: FMusgrave to note CAMHS waiting times as an issue in her future Business Report but it was confirmed there remains a long way to go.</p> <p>Action: LMason-Lodge to feedback the discussions held today.</p>	<p>JMacilwraith 18/09/18</p> <p>FMusgrave 18/09/18</p> <p>LMason-Lodge 18/09/18</p>
<p>7. Independent Reviewing Officers (IRO) Annual Report</p>	<p>FMusgrave referred to the report circulated and provided a brief outline.</p> <p>The number of children’s reviews has increased, a rise in the number of average caseloads and because of this the number</p>	

	<p>of IROs employed have also increased.</p> <p>Performance indicators are reviewed monthly and are showing good improvement.</p> <p>Some further work to be carried out regarding the participation of children.</p> <p>The Board noted the feedback received from children and families and that IROs were asked to provide examples of how they have made a difference and impacted on a family.</p> <p>A dispute resolution process (DRP) is now established and the IRO can escalate up through the system if it is required.</p> <p>GRigg advised this was a very good report and that the IRO Team have come a long way.</p> <p>JMacilwraith advised he thinks it is a good report but colleagues may be aware of the Narey Review and the suggested view that the future role of IROs and whether they add as much value and given maturity of system is there still a need for the IRO service? As yet, the Government has not responded.</p>	
<p>8. Cumbria Workforce</p>	<p>It was agreed to defer this item to September meeting given the earlier discussion.</p>	<p>SMitchell 18/09/18</p>
<p>9. Working Together 2018</p>	<p>GRigg referred to updated WT 2018 which was published on 4 July.</p> <p>It is suggested that a Project Plan is drafted to take to the Business Group. All 3 key partners have to agree a plan by June 2019 and that by September 2019 LSCB's will be abolished as will the need for an independent chair.</p> <p>It was agreed that a letter will be written in GRigg's name to a named person in each key partner to ask for a named person who will undertake this day to day work.</p> <p>Local Authority – John Macilwraith noted that it would be himself, together with FMusgrave and LBerryman.</p> <p>Police – Dean Holden noted that it would be himself and Vicki Ellis and Dave Pattinson. Letter to be sent to Michelle Skeer and copy to Dean Holden</p> <p>North Cumbria CCG – it was noted that the letter should be sent to Dr David Rogers</p> <p>Morecambe Bay CCG – it was noted that the letter should be sent to Andrew Bennett as the accountable officer.</p>	

	<p>The letter will be asking for this information to be confirmed within a week and that a meeting will be arranged for September – the letter will include the date of the meeting. Those attending must be prepared to commit their organisation going forward and have the authority to make this commitment.</p> <p>Action: FMusgrave to draft the letter to be sent out.</p> <p>In terms of a project plan, LSCB’s may continue for further year to sign off any outstanding Serious Case Reviews. It is not known at this time if this will need to happen. CDOP’s can also continue for 4 months after September 2019 to sign off outstanding cases but not to review any new cases.</p> <p>Key transitional issues – from the day the new Panel came in force (29/6/18), LA’s must, within 5 days of any death of a child or circumstances of serious incident when a SCR may be considered, notify the Panel of the incident. LSCB’s then must have held a rapid review meeting and write to the National Panel within a further 15 days and advise the LSCB Chair’s initial decision re a SCR and on any potential national issues. There will be a need to streamline cases very quickly.</p> <p>It was also noted that if a Cumbrian child dies outside of Cumbria, as a suspected case of abuse or neglect, it is the area where they have died that completes the Department for Education (DfE) notification form and it then comes back to the residing area.</p> <p>FMusgrave advised that the NSPCC has produced a document as to what has changed, which is helpful.</p> <p>JHerbison asked if there was still an option to have an independent LSCB chair. GRigg advised that it will be down to the 3 partners to agree and that there could be very inconsistent arrangements across the country.</p> <p>JMacilwraith said that on behalf of the Local Authority in terms of the effectiveness of this Board and its impact over the last few years, he does not want to lose all that progress.</p>	<p>FMusgrave 30/07/18</p>
<p>10. Brief Updates from other Partnerships</p>	<p><i>Health and Wellbeing Board (HWBB)</i></p> <p>JMacilwraith advised primary focus of the last meeting was the CQC action plan following the system review into older adults. This plan has been signed off and submitted to the CQC.</p> <p><i>Children’s Trust Board</i></p>	

	<p>JMacilwraith advised the last meeting focussed on the work of the LEP and development of the 2019-22 Children and Young People’s Plan. The Board is now very well represented and are discussing how they might review arrangements to oversee the revised plan.</p> <p>Adult Safeguarding Board</p> <p>SWard advised the Board has not met very recently and that at the last meeting they were looking at the Annual Report, Serious Adult Reviews are being published, and a Sub-Group set up.</p> <p>Safer Cumbria</p> <p>SWard advised that there will be a new partnership post regarding modern slavery which may be of interest to partners.</p> <p>Corporate Parenting Board</p> <p>ABurns advised the last meeting discussed the Care Leavers Strategy and a workshop has recently been held, together with a parallel event with children and young people. The Strategy will be signed off in December by the Cabinet and plan is for the Strategy to run in parallel with the Council Plan from January 2019.</p> <p>Foster carers are beginning to have a voice and attend the Board and are picking up issues which were not dealt with before. Foster Carers have advised they are happy with the recent changes made to how they are paid, etc. The Authority is now receiving a number of enquiries from carers who had left the Authority and moved to the private sector, but who may wish to return.</p> <p>Family Justice Board</p> <p>LBerryman advised looked at the longest timescale for cases within the court for learning and a shared analysis and action plan is going to the performance group. This was main agenda item. There is very similar learning for CAFCASS and the Local Authority.</p> <p>Mark Adams chaired the Board but he was now stepping down.</p>	
<p>11. AOB</p>	<p>Child X</p> <p>LMason-Lodge referred to this case – a judgement made by Judge Mumby regarding Child X. NHS England co-ordinated a review of the circumstances which basically involved the</p>	

	<p>sourcing of a Tier 4 placement for a child who was known for a long time and was clearly very vulnerable. In terms of recommendations of the review and governance, it was suggested that the LSCB may be that group. There was no identified owner for any of the recommendations.</p> <p>Clearly in respect of the report we need some assurance – emotional health and wellbeing support and CAMHS. There are question about oversight and assurance from this Board’s perspective around safeguarding of children.</p> <p>LMason-Lodge advised it does not meet the criteria for the Case Review Sub-Group in terms of oversight and any other assurance.</p> <p>FMusgrave suggested it should sit with the Emotional Well-being and Children’s Trust Board. It does not fit with the LSCB agenda and thinks this is an action for ownership is with the Emotional Well-being, then governance sits with the Children’s Trust Board.</p> <p>JMacilwraith would agree with this. There had been a challenge around how people were together to benefit Child X. There were some blockages in achieving a suitable placement for Child X.</p> <p>The recommendations are about commissioned services and how operational work and the emotional wellbeing group can refer to this Board. One board needs to be responsible and they could work across when required.</p> <p>The owner of the report is NHS England who do want to know where the ownership of this should sit.</p> <p>Action: JMacwilraith, CCox and FMusgrave to meet and agree the way forward for this governance. NHS England to be included in the discussions.</p> <p><i>Sport and Safeguarding</i></p> <p>LMason-Lodge referred to a number of high profile issues and sport and historic abuse and how is this Board sighted on this.</p> <p>FMusgrave advised that any current cases come through LADO and historic cases come through the Police.</p> <p>ABurns asked about training and where it is held. FMusgrave advised that training is all around the county. The training is regularly held. Training must be through their own official body.</p>	<p>JMacilwraith/ CCox/ FMusgrave 18/09/18</p>
--	---	---

	<p><i>Agenda Item for September Meeting</i></p> <p>Inter-familial sexual abuse – to ensure the LSCB has a good self-assessment. Guidance will be issued in September and will also be brought to the meeting.</p>	
<p>12. Date and Time of Next Meeting</p>	<p>18 September 2018, 10.00 am – 1.00 pm, Cumbria House, Carlisle</p>
