

# How to use the online traveline Journey Planner

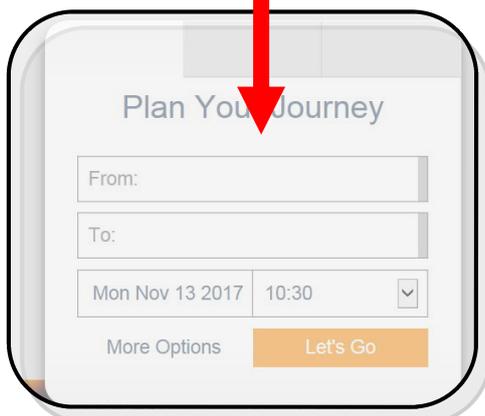

Links to the planner can be found in various places on the County Council website

Or it can be access direct at :-

[www.traveline.info/](http://www.traveline.info/)

This will give you this screen

Enter →

The screenshot shows a mobile application interface titled "Plan Your Journey". It features four input fields: "Start point" (containing "CA6 4SJ"), "Final destination" (containing "kendal Bus Station"), "Date of Travel" (containing "Mon Nov 13 2017"), and "Time of departure (or arrival)" (containing "08:30"). Below these fields are two buttons: "More Options" and "Let's Go". Red arrows point from callout boxes to each of the four input fields.

**From / To** : A postcode is the most accurate, but if you don't know the postcode, provide as much information as you have, about where you want to travel to/from

**Date** : This will initially show the date you run the enquiry, but can be changed to a future date. This can be important as some services run different timetables on different days (especially on Sundays).

**Time** : This will initially assume you want to travel immediately, but can be changed.

The screenshot shows a calendar for November 2017. The date "13" is highlighted in green. Below the calendar is a date input field containing "Mon Nov 13 2017" and a time input field containing "08:30". There are also "More Options" and "Let's Go" buttons.

### How to Change the Date of Travel

- ▶▶ Point at the Date Box, and push left mouse button
- ▶▶ This gives you a calendar from which you can choose the date you want
- ▶▶ If necessary use the Arrows next to the month, to move forward to another month

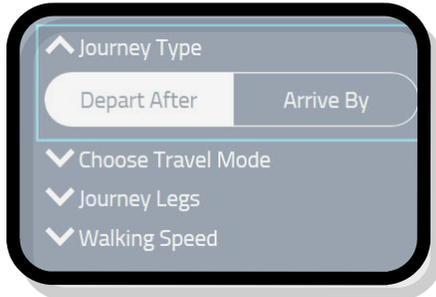

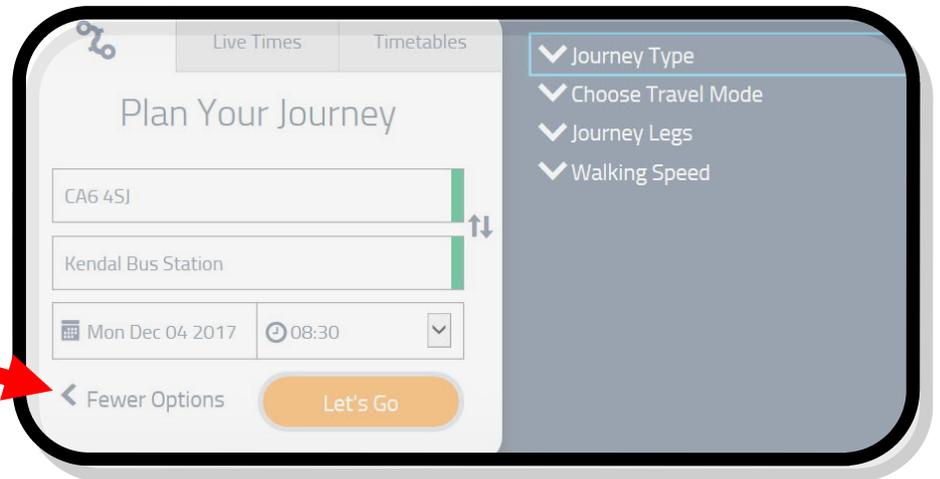

### Change the Time

- ▶▶ Point at the Time Box and push left mouse button
- ▶▶ This gives you a list of times - scroll up or down and choose the one closest to when you want to travel

The screenshot shows the "Plan Your Journey" form with a list of times displayed next to the time input field. The list includes times from 05:45 to 09:30 in 15-minute increments. The time "08:30" is highlighted in blue. The input fields for "Start point" and "Final destination" are still visible on the left.

## More Options>

For more options press the More Options button (which will then change to “Fewer Options”)

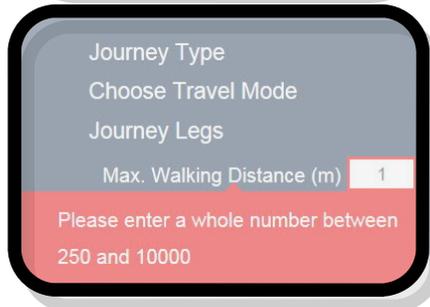

**Journey Type** : Allows you to choose whether you want to have solutions which “Depart After” or “Arrive By” a specific time

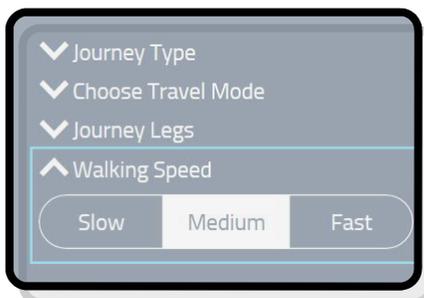

**Travel Mode** : Allows you to choose to exclude types of travel you do not want to use (e.g. if you do not want train options - press the box to remove highlight)

N.B. Remember you will almost always need to walk at some point in your journey

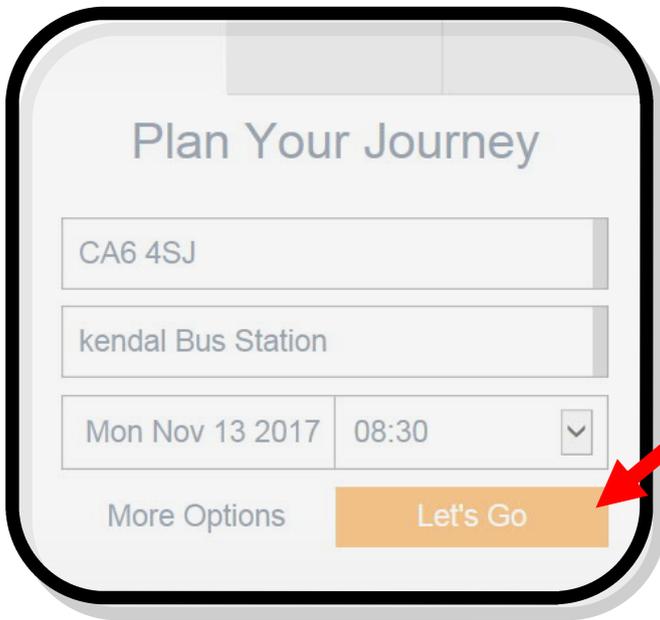

**Journey Legs** : Allows you to alter the maximum walking distance. The default is 2,000 metres which is approximately 1<sup>1</sup>/<sub>4</sub> miles. Enter any distance between 250 metres (0.15 of a mile) and 10,000 metres (over six miles). 1<sup>1</sup>/<sub>4</sub> mile = approximately 400 metres.

**Walking Speed** : Allows you to vary, to allow more or less time to walk between points on your journey

Once you are ready to plan your journey, press the **Let's Go** button

You may be given extra options to choose from

Once you have made your choice

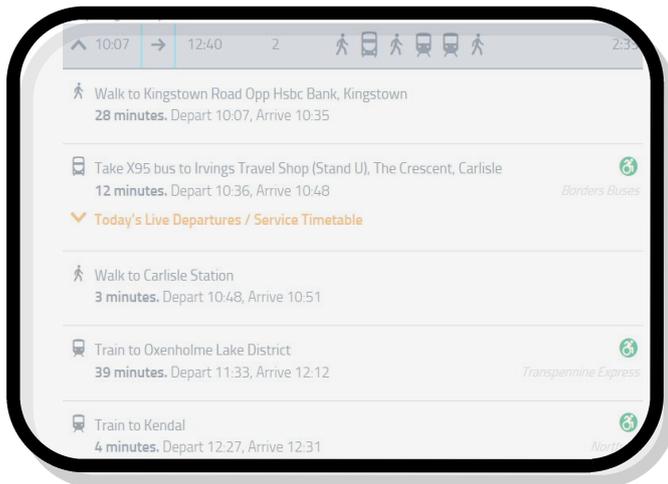

You have to press the **Plan Journey** button

This gives you a number of journey solutions

For more information on a journey press the downward arrow

Press **View on Map** at the bottom of the page to be able to see the route and scroll to enlarge the map to see details of walking routes to or between stops

# Results

## Summary of Journey Information :

e.g. leave at 10:07 arrive at 12:40 : make 2 changes : the journey involves walking; a bus; and two trains :  
It takes a total of 2 hours and 33 minutes

Looks at other options as sometimes travelling earlier or late can reduce the number of changes, or travel time

## Map of Walking Route

- > To get a map of your walking route to / from / between stops (or any other part of your journey)
- > First press the **Show Map** button at the bottom of the journey details
- > Then press the section of the route you want a map for, and a map will appear.
- > Use the +/- button (top left of map) or Scroll using your mouse to get the magnification you want.
