Help with Finding a Bus Timetable

> The easiest way to access the main page with links to bus timetables from across the County is [www.cumbria.gov.uk/buses](http://www.cumbria.gov.uk/buses)

That will bring you to this page.

There is a menu with links to timetable pages for each District on the left.

A central block with timetable information.

A set of menus on the right which with links to other useful information such as maps, fares, realtime information, journey planner plus rail and ferry information.

As a TIP: To make the screen bigger, press the "X" at the top the right of the menu and this will hide the menu.

To get it back press just press “MENU”.

The easiest way to find a timetable for where you are or where you want to go, is to enter the place name in the search box (e.g. Brockhole) or if you know the bus service number you can enter that instead.

Then Press “GO”.

This will give you a list of links to timetables for the chose location.

Press a link and that will open a timetable in a new window.

Most timetables are on more than one page, so you may need to scroll down the page for later journeys, journeys in the opposite direction or journeys on different days (e.g. Sundays, but not all services run on Sundays).

TIP: If you get no results, check the spelling, but if you still get no response there may be no bus to the place you require. Try another point nearby.

If there are multiple options, some will be more useful than others. So if the first has no journeys that match what you want, check other options, especially for evenings or Sundays.
Alternatively further down the page you will find links to groups of timetables from towns across the County, listed in alphabetical order.

Choose the appropriate one for the place you need information for (e.g. for “Grange over Sands” choose the “Buses to/from Towns E&G (Egremont - Grasmere)” option.

Details of services for the first place on the list show automatically (so in this example Egremont).

So if you want one of the other places listed, choose the appropriate tab.

Then the timetable that you require (e.g. 531)

These will be the Current timetable, but times will change occasionally.

When we are aware of this an extra note is added

Once we have a new timetable it is added to the section which can be found at the bottom of the menu.
The Forthcoming Changes tab works in the same way as the Services one.

So you will need to choose the appropriate one (e.g. 531 is in the range “100 to 755”)

That opens up a list

The start date is listed on the title and also next to it

You can also access timetable split in to the six Districts of the County

This can be done from the left hand menu

Or by using a map

Choose the link shown between the search box and the list of Towns

So for timetables for services in South Lakeland either choose this from the menu or the map
Again there is a Search box (but it only works for points within South Lakeland, so if you are not sure use the one on the first page)

Also a list of services, in drop down menus

A link to the Forthcoming changes section

If you are still having difficulties finding what you want ring or use their website:

**TIP:** It is not always possible to get a direct journey between two points, but it may be possible to do it by changing buses. The Traveline journey planner can give some suggestions how this can be done, or spot direct services (including using trains) that you may not have been aware of.

If you spot anything in these notes that does not work, or have any suggestions how they could be improved please contact us at
