

Community Infection Prevention and Control Policies for Care Home settings

No	Title	Version	Date
	Introduction	3.00	August 2020
01	Animals in a care home setting	3.00	August 2020
02	Aseptic technique	3.00	August 2020
03	Blood-borne viruses (BBV)	3.00	August 2020
04	Care of the deceased	3.00	August 2020
05	<i>Clostridioides difficile</i>	3.00	August 2020
06	Creutzfeldt-Jakob disease	3.00	August 2020
07	Enteral tube feeding	3.00	August 2020
08	Hand hygiene	4.00	August 2020
09	Invasive devices	2.00	August 2020
10	Isolation	3.00	August 2020
11	Mattresses and pressure relieving cushions	3.00	August 2020
12	MRGNB including ESBL and CPE (Multi-resistant Gram-negative bacteria including Extended-Spectrum Beta-Lactamase and carbapenemase-producing Enterobacteriaceae)	4.00	August 2020
13	MRSA (Meticillin resistant <i>Staphylococcus aureus</i>)	3.00	August 2020
14	Outbreaks of communicable disease	4.00	August 2020
15	Patient placement and assessment for infection risk	3.00	August 2020
16	Personal protective equipment	2.00	August 2020
17	Respiratory and cough hygiene	1.00	August 2020
18	Safe disposal of waste	4.00	August 2020
19	Safe management of blood and body fluids	1.00	August 2020
20	Safe management of care equipment	4.00	August 2020
21	Safe management of linen	3.00	August 2020
22	Safe management of sharps and inoculation injuries	3.00	August 2020
23	Safe management of the care environment	3.00	August 2020
24	Scabies	3.00	August 2020
25	Specimen collection	3.00	August 2020
26	Standard infection control precautions	3.00	August 2020
27	Urinary catheterisation	3.00	August 2020
28	Venepuncture	2.00	August 2020
29	Viral gastroenteritis/Norovirus	3.00	August 2020
