

Commons Act 2006

Section 19 (2) (a)

Application to correct the register – mistake made by the registration authority.

NOTICE OF DETERMINATION

Application Number: CA10/28

Notice is hereby given that Cumbria County Council, as the Commons Registration Authority (“the CRA”), has at a meeting of its Development Control and Regulation Committee (“the Committee”) on the 15th August 2017, considered an application to correct a mistake in the register made by the predecessor CRA concerning the registration of land at Hyton Farm, Bootle (herein after referred to as “the Application Land) as common land.

Decision

The Committee resolved to accept the application to correct the register and remove the Application Land from common land register unit no. CL430 Hyton Marsh.

The CRA has given effect to the determination by deregistering the Application Land as common land which entailed the addition of a register amendment entry confirming deregistration of the part, and the amendment of the register map showing the Application Land marked as deregistered.

Reasons

The Committee took into account a report written by the Commons Officer (“the Officer”). The Officer’s report made a recommendation to the Committee to accept the application on the grounds that there is sufficient evidence that Cumberland County Council as the registration authority made a mistake upon registration under the Commons Registration Act 1965. The Application Land was mistakenly included within the boundary of common land register unit no. CL430.

Documentation

Officer’s report and a plan of the Application Land are available within the 15th August 2017 documentation at:

<http://moderngov.ccc/ieListMeetings.aspx?CId=124&Year=0>

(the minutes of the meeting will be published in due course)

Signed

Angela Jones – Assistant Director Economy and Environment
