

Full bypass to the east of the farm (blue line on map)

This option would leave the existing road to the north of Chapels, bypassing the existing narrow sections of road to the east of the cottages and the farm. The route would then cross the existing road south of the village of Grizebeck and continue to the west of the village to meet the A595. The bypass of the village and the new junction would be a similar arrangement to that proposed for the first option.

This route would be easier to construct as it is away from the existing road although the line it would take is restricted by the lay of the land in this area. The existing A595 would become a road for local users.
