BACKGROUND NOTES

This is required under the Safety of Sports Grounds Act 1975 for a whole ground that is known as a Designated Ground; or Part III of the Fire Safety and Safety of Places of Sport Act 1987 for a covered stand at a sports ground (other than at a Designated Ground) known as a Regulated Stand, where a licence in the form of a Safety Certificate is required to be issued by the local enforcing authority, Cumbria County Council (*hereafter known as the Council*), for sports grounds or stands, or for special events within those grounds.

The full criteria for qualifying for the above can be found in the accompanying application procedure notes. Please note that a separate application form is required for each regulated stand at a sports ground (although any certificate issued may cover all such stands).

Following receipt of this application, the Council will make a preliminary determination regarding the validity of the application. In the case of a Designated Ground, application will then be further made to the Secretary of State should the Council so determine. The Council will have served notice of this determination on you under section 7 of the 1975 Act (*Designated Ground*) or section 28(2) of the 1987 Act (*Regulated Stand*). That determination will have become a final determination for the purposes of the 1975 or 1987 Acts at the end of the period of two months beginning with the date of that notice.

You can pursue separately with the Council the question whether a ground or stand in fact satisfies the above criteria, which determines whether a ground is a Designated Ground or a stand is a Regulated Stand. An "on site" inspection is likely to be necessary in resolving such a question. Alternatively you may yourself realise that the ground or stand does meet the required criteria and may apply for a safety certificate in respect of it without a preliminary determination being made by the Council. Where the application is for a special safety certificate this question will already have been resolved because a special safety certificate is issued only if a general safety certificate is in force.

Under the provisions of section 3(1) of the 1975 Act (*Designated Ground*) or section 28(7) of the 1987 Act (*Regulated Stand*) in the case of a general safety certificate, or section 28(8) of the 1987 Act in the case of a special safety certificate, the Council receiving an application for a safety certificate have to determine whether the applicant is qualified to hold the safety certificate. The applicant should therefore provide the information as detailed in the accompanying notes to enable the local authority to deal with the application.

A scale plan of the sports ground and/or the relevant stands should, if available, accompany this application. However, under section 3(4) of the 1975 Act or 28(11) of the 1987 Act, the Council may require you to provide further information and plans of the ground.
